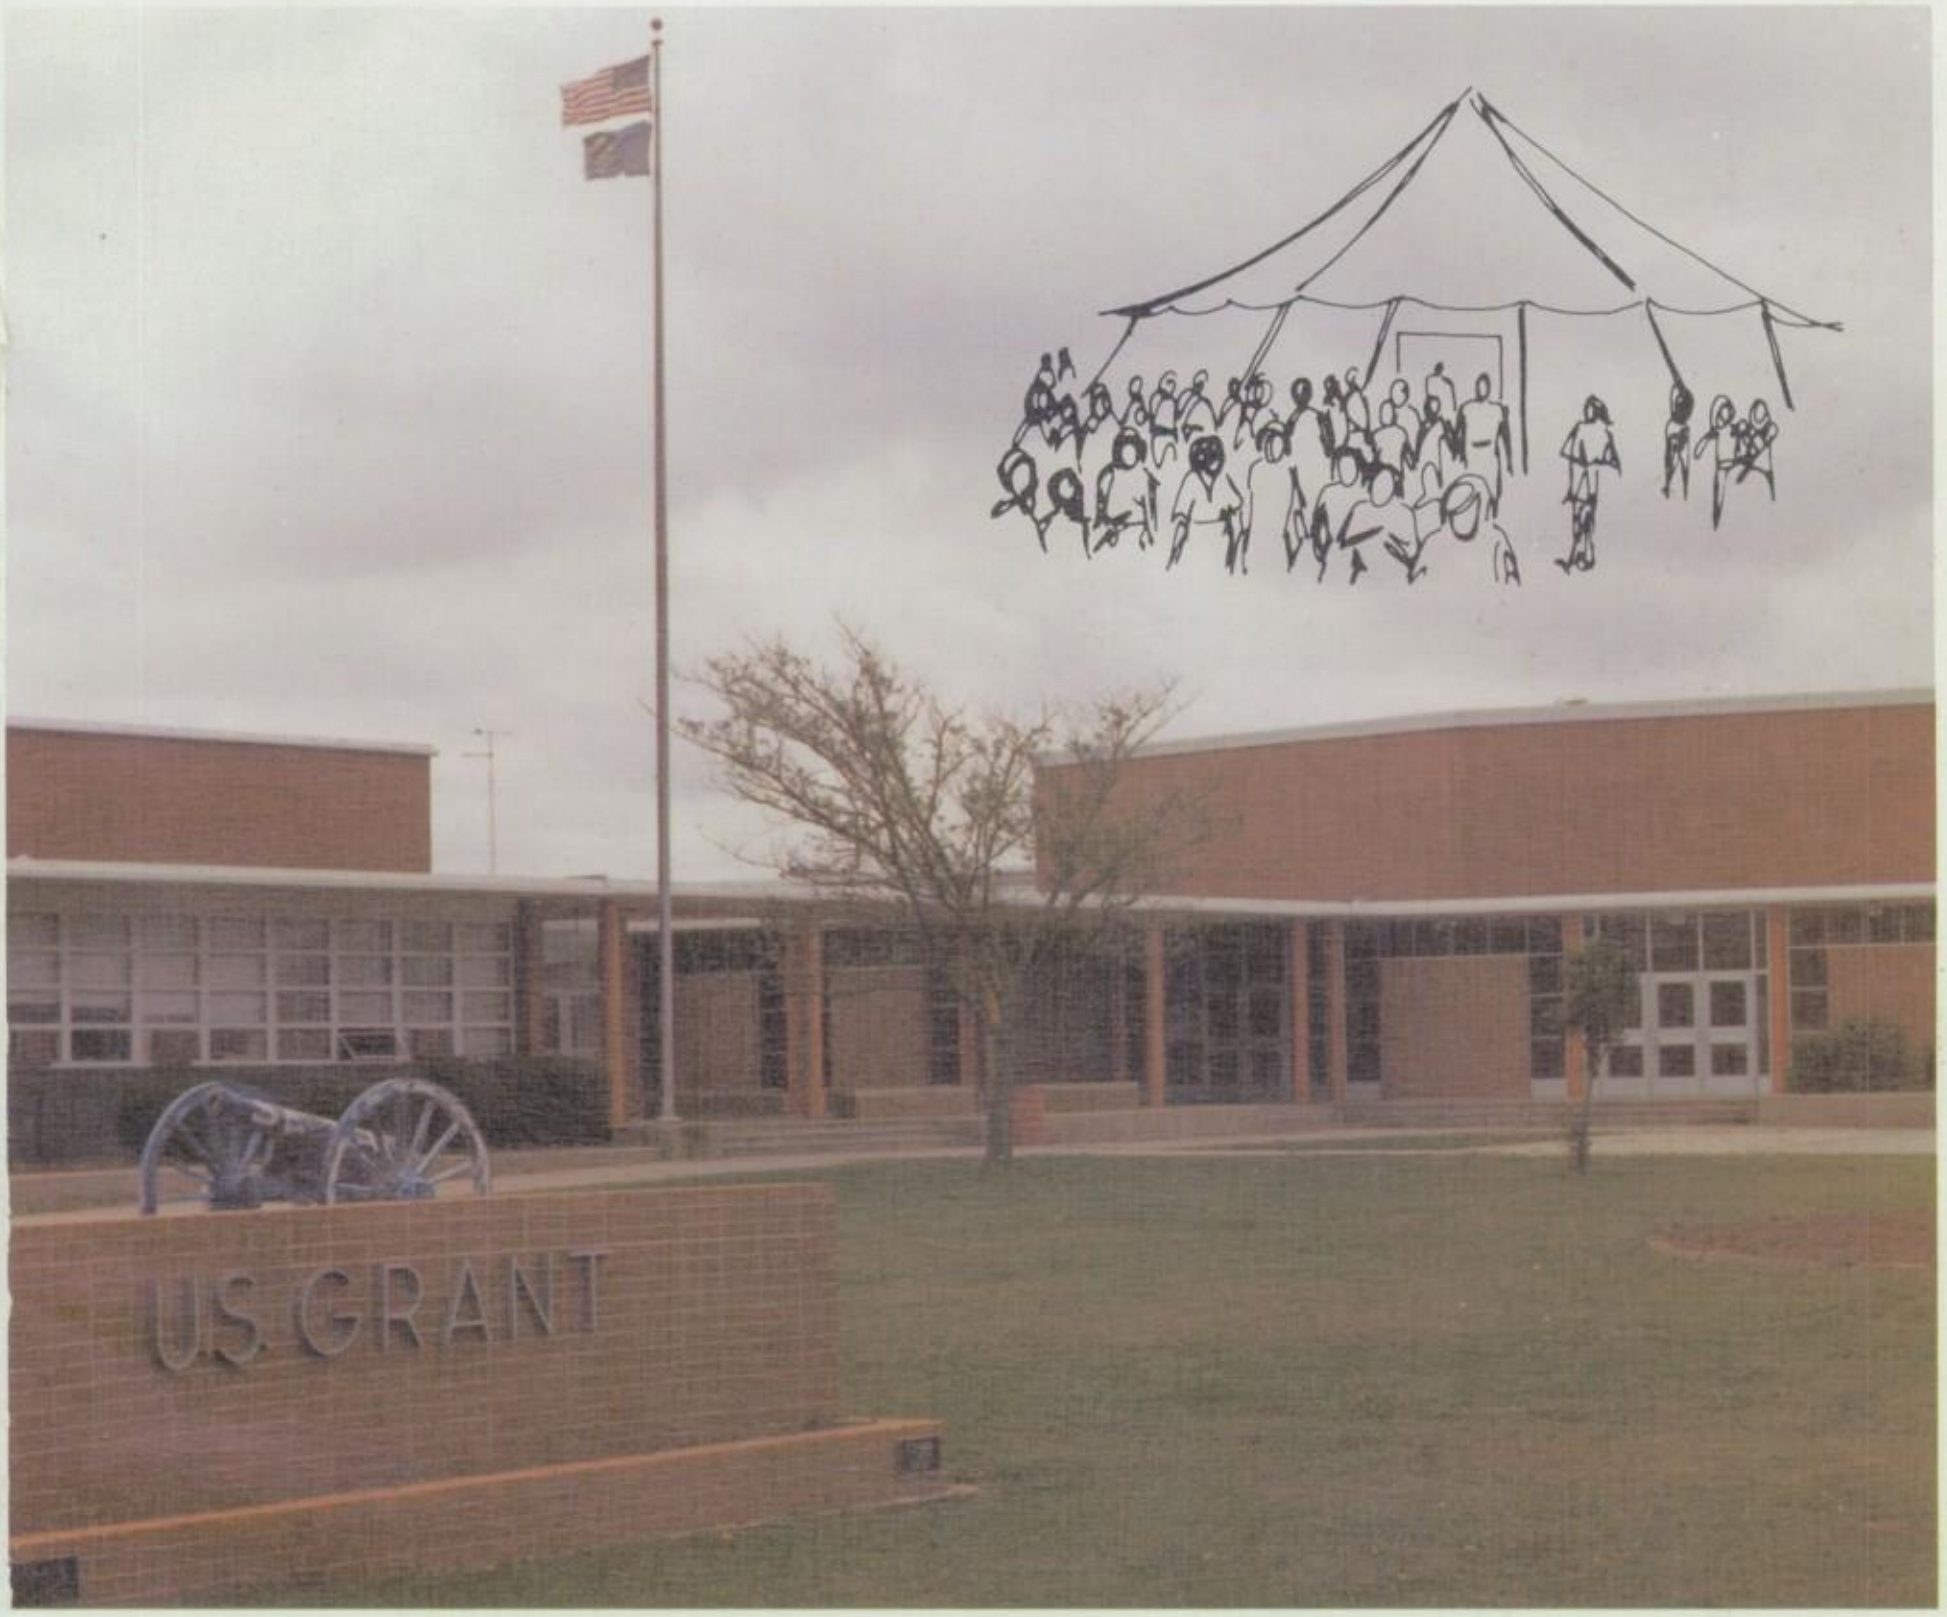
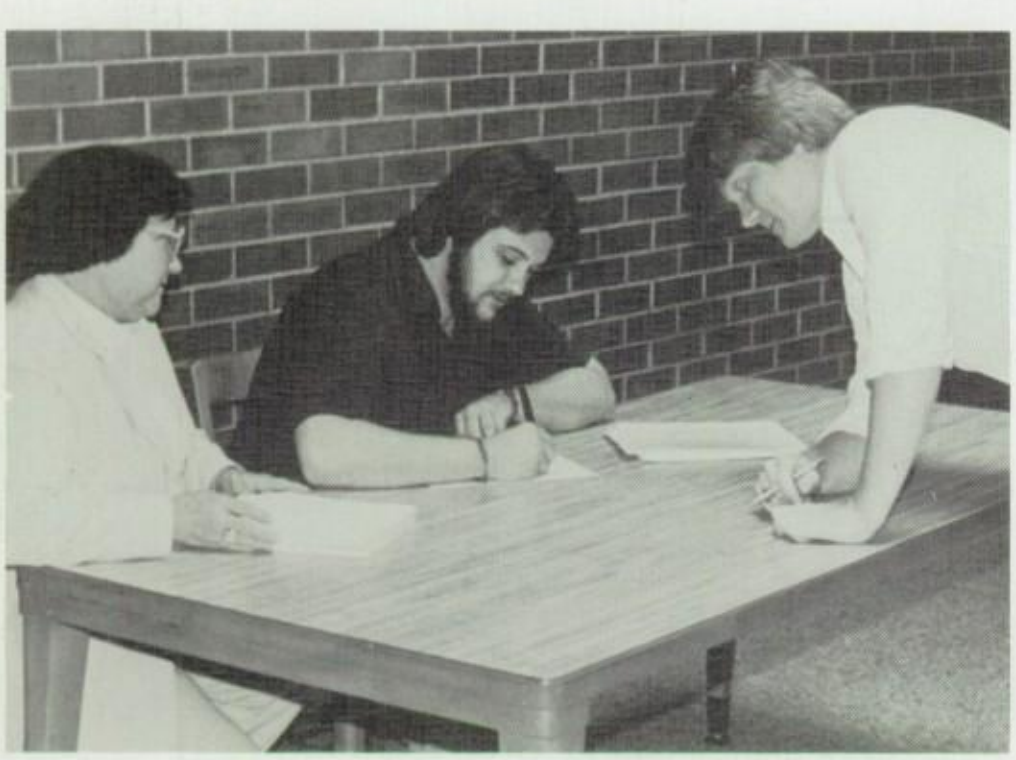
Mrs. Dorothy Dean

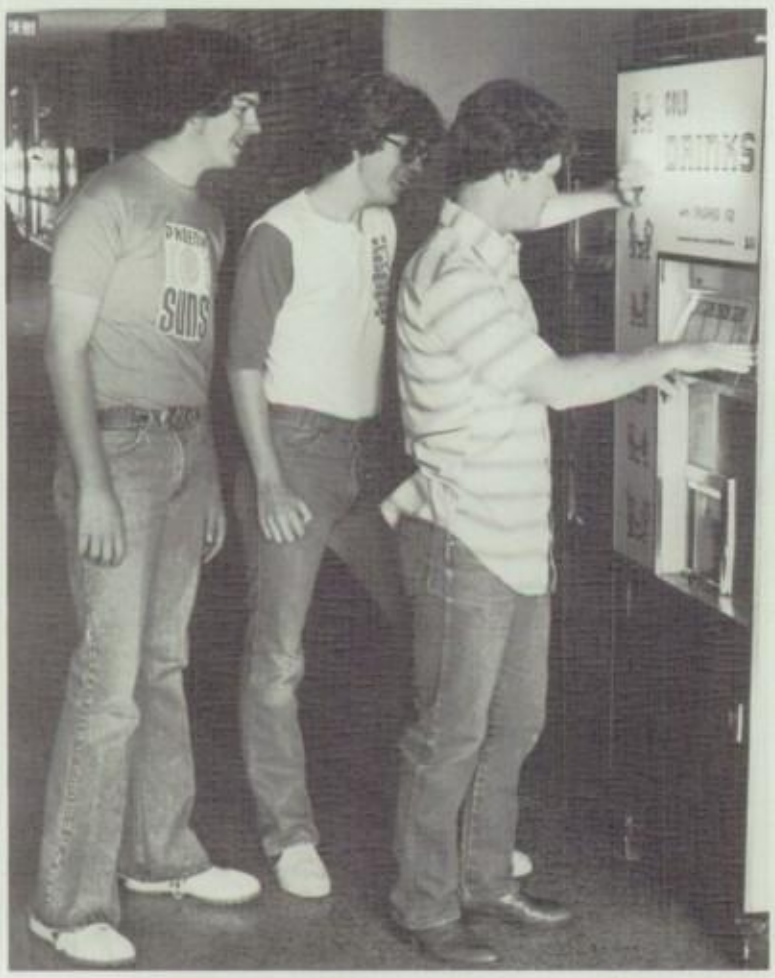


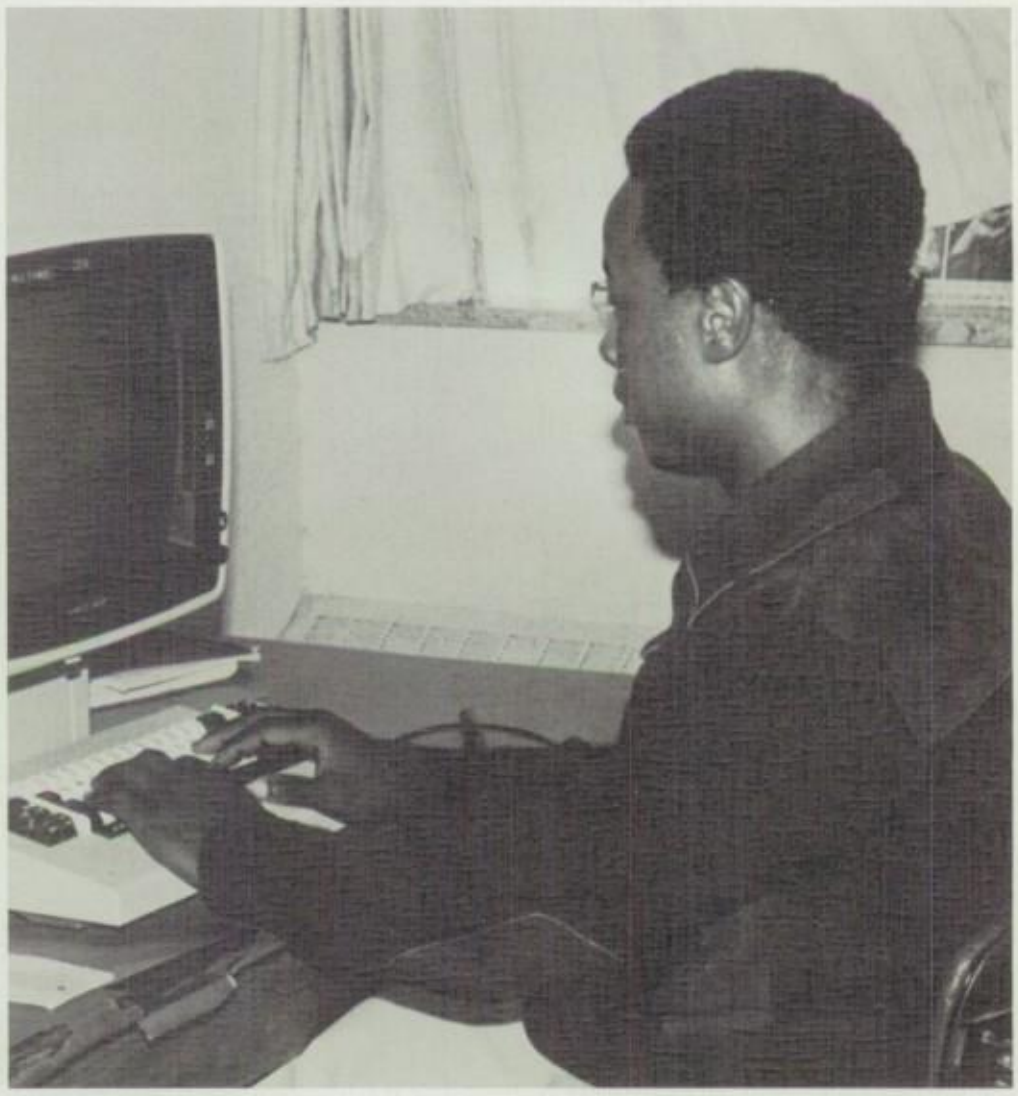
We are beginning to prepare ourselves for our lives ahead. The world is continuously changing around us, and we are starting to try to keep pace with everything. We are taking on new responsibilities that will bring us closer to maturity. The realization that we are growing older is coming to us quickly. Maturity is now very close at hand, and we are beginning to reach toward our many goals. Our opinions and attitudes are taking on new importance as we become more aware of the world around us. Our ideas are shifting with the passing days as we prepare ourselves for THE CHANGING TIMES.

The world is changing fast around us. Many new things are being developed and introduced into our lives. We are constantly adjusting to these changes all around us and we actually enjoy most of them. Change seems to have become a way of life for us. As our world, our nation, our state, and our city change around us, so does our school. Most changes are for our benefit although we don't always realize or appreciate this fact; we just accept it. These changes are seen in A CHANGE OF CAMPUS.

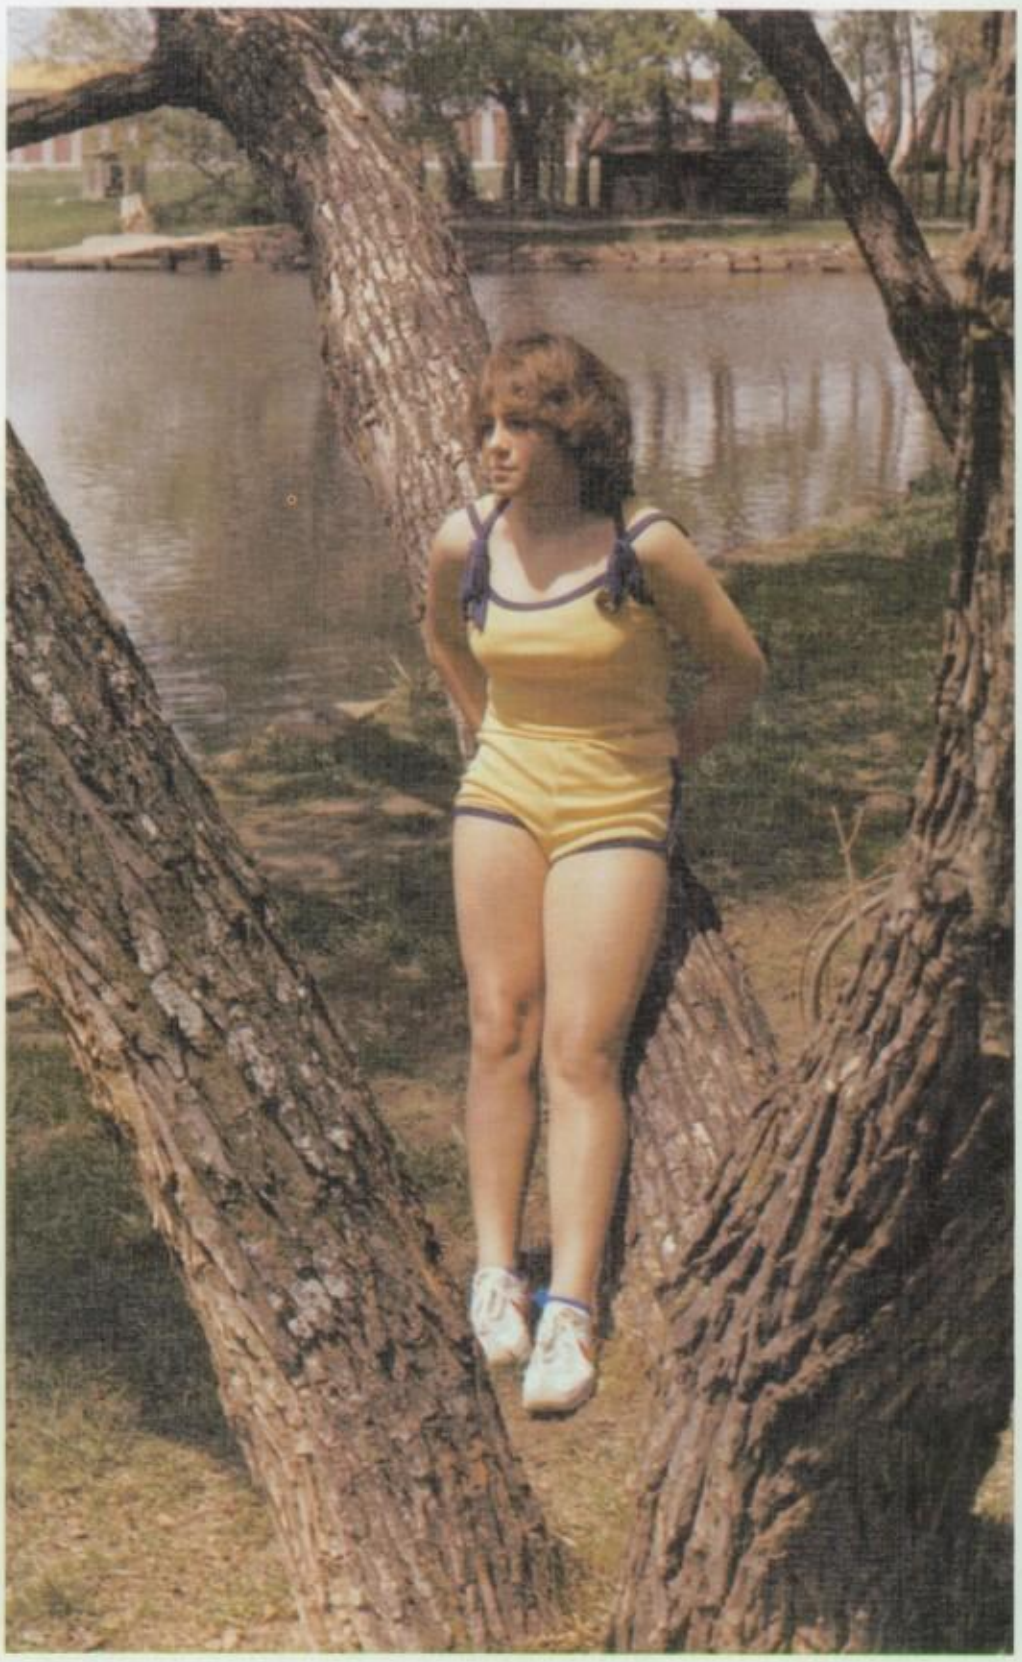
Jeff Waldon is confused by the new method of enrolling. Looking for prospective colleges are Diane McDaniel and Rena Blancett. Improving the looks of the campus are James Webster, Janetta McCormick, and Terrance Banks. DeVonne Mitchell searches for a career on the "discovery program." Finding out that cokes are no longer available are Scott Darnold, Brian Mastin, and Ron Aldridge.







A CHANGE OF CAMPUS



As the seasons change around us, so do our lifestyles. When it is winter, we need others to be with us to warm our hearts. When spring comes, our lives seem to blossom along with the flowers. We are full of life and great expectations. As spring passes and summer begins, our lives are almost totally outdoors. We swim, water ski, and just enjoy nature. When autumn comes, we take time for relaxation. We just take it easy and enjoy the simple things in life. Our whole lives seem to revolve around A CHANGE OF SEASONS.

Kevin Maxwell braves the cold to jog. Tonya Allen relaxes during a welcome sunny spring day. Kelly Huffman gets ready for summer by cleaning her pool. James Eaton prepares for the fall hunting season.

A CHANGE OF SEASONS

As many of our tastes are changing, so is our taste in music. Rock gave way to hard rock, hard rock to punk rock, and punk rock to country. As we get older, everything tends to change. Our opinions, attitudes, and tastes are among the first things to change. Change is just part of growing up. We must always try to keep up with the times as we go through A CHANGE OF TUNES.

Shawna Harris practices taping a commercial. Mike Bates, Tony Collins, Reesa Simpson, Marcia Satterlee, and Jay Hanlan display some of their favorite rock groups on their shirts. Angie Moody can't believe Billy Moody's taste in music. John White enjoys a little music in-between classes. Gwen Ray looks on as Prince Roberson practices his playing.

A CHANGE OF TUNES

FORD

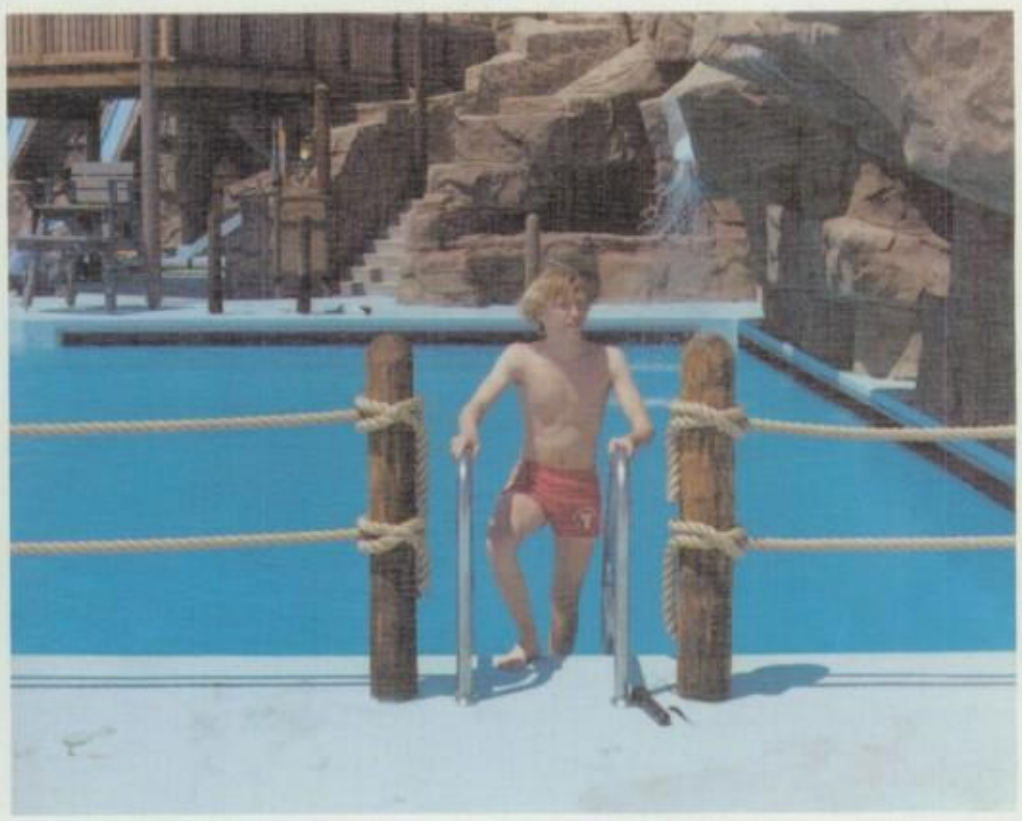
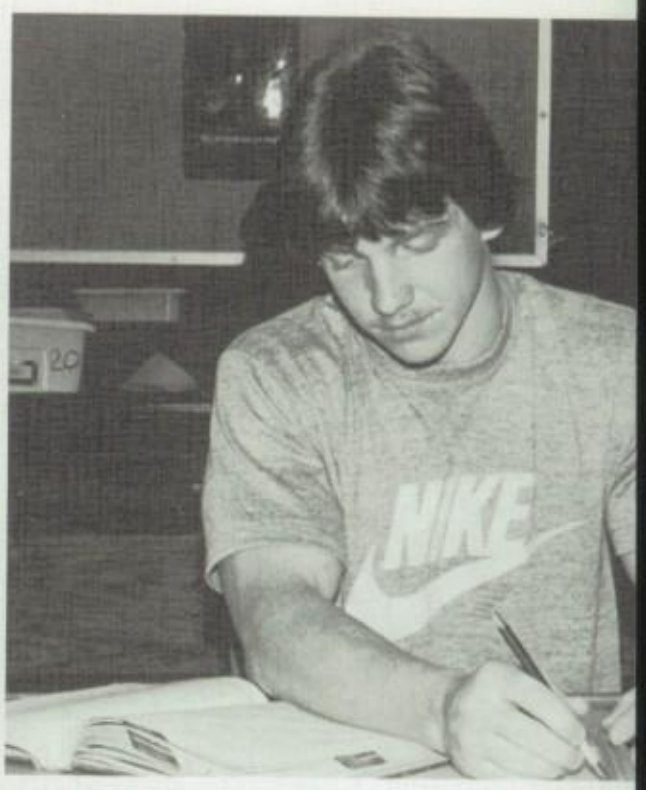
Our surroundings seem to be changing all the time. The park that we played in when we were children may now be an executive building or a restaurant. There have been many new businesses and recreational areas recently. We seem to expect these changes, and we accept most of them readily. Somehow they represent the changes in our lives. Everything must change at some time, and we seem to look forward to A CHANGE OF SCENES.

Lisa Eastridge and Karen Harris check out one of the new Ford cars. Enjoying the downtown scenery are Darla Boyd and Tommy Seeley. Trent Kirkpatrick takes a dip at White Water. Larry Rudiger and Felicia Archer discuss their debate evidence. Karolyn Armstrong takes Robbie Gage and her brother, Ray, out to eat at Show Biz pizza place.



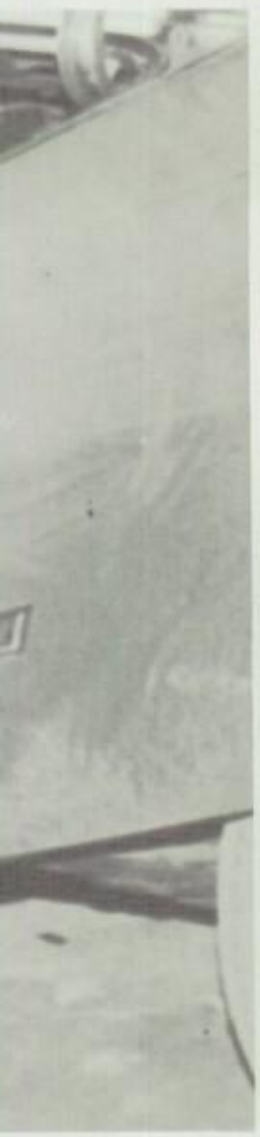
A CHANGE OF SCENES



NIKE

The ambitions, the hopes, the dreams, and the fears are all coming to the surface. What we want from life now seems very different from what it was a few years ago. We are moving toward what we want in life, although we often aren't sure what that is. Our wants and wishes seem to change with each passing day as we have A CHANGE OF GOALS.

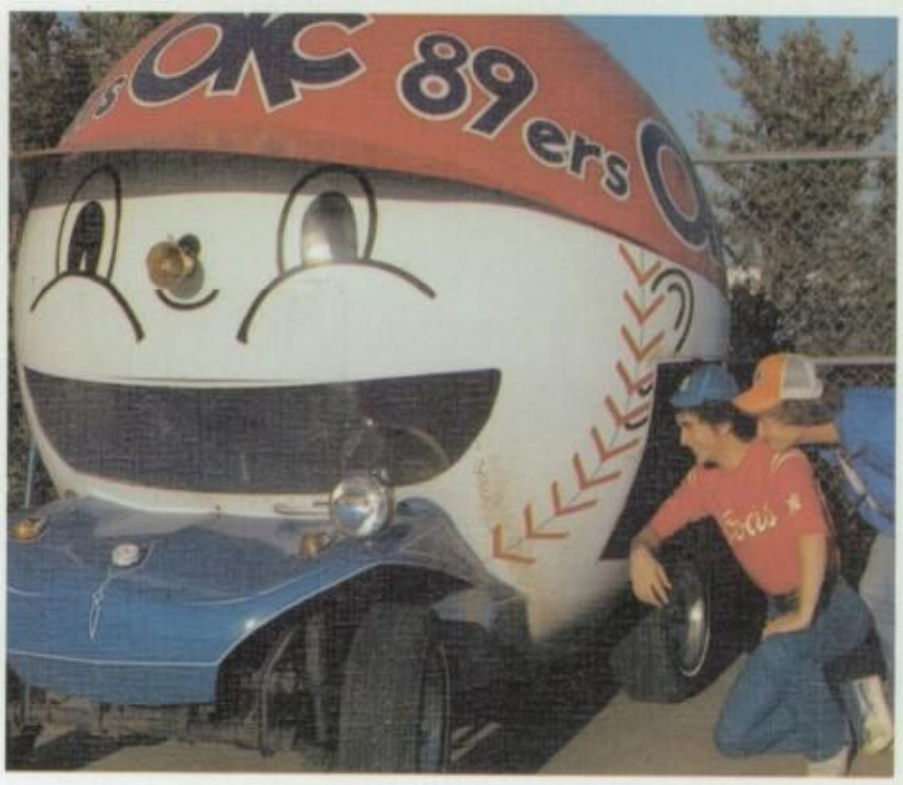
Forrest Pollock repairs the video tape recorder. Steve Renshaw considers a career in architecture. Looking toward a career in fashion is Detra Dixon. Roger Coggins and Jeff Schoelen enjoy designing furniture. Shannon Davis plans on making a little extra money repairing cars.

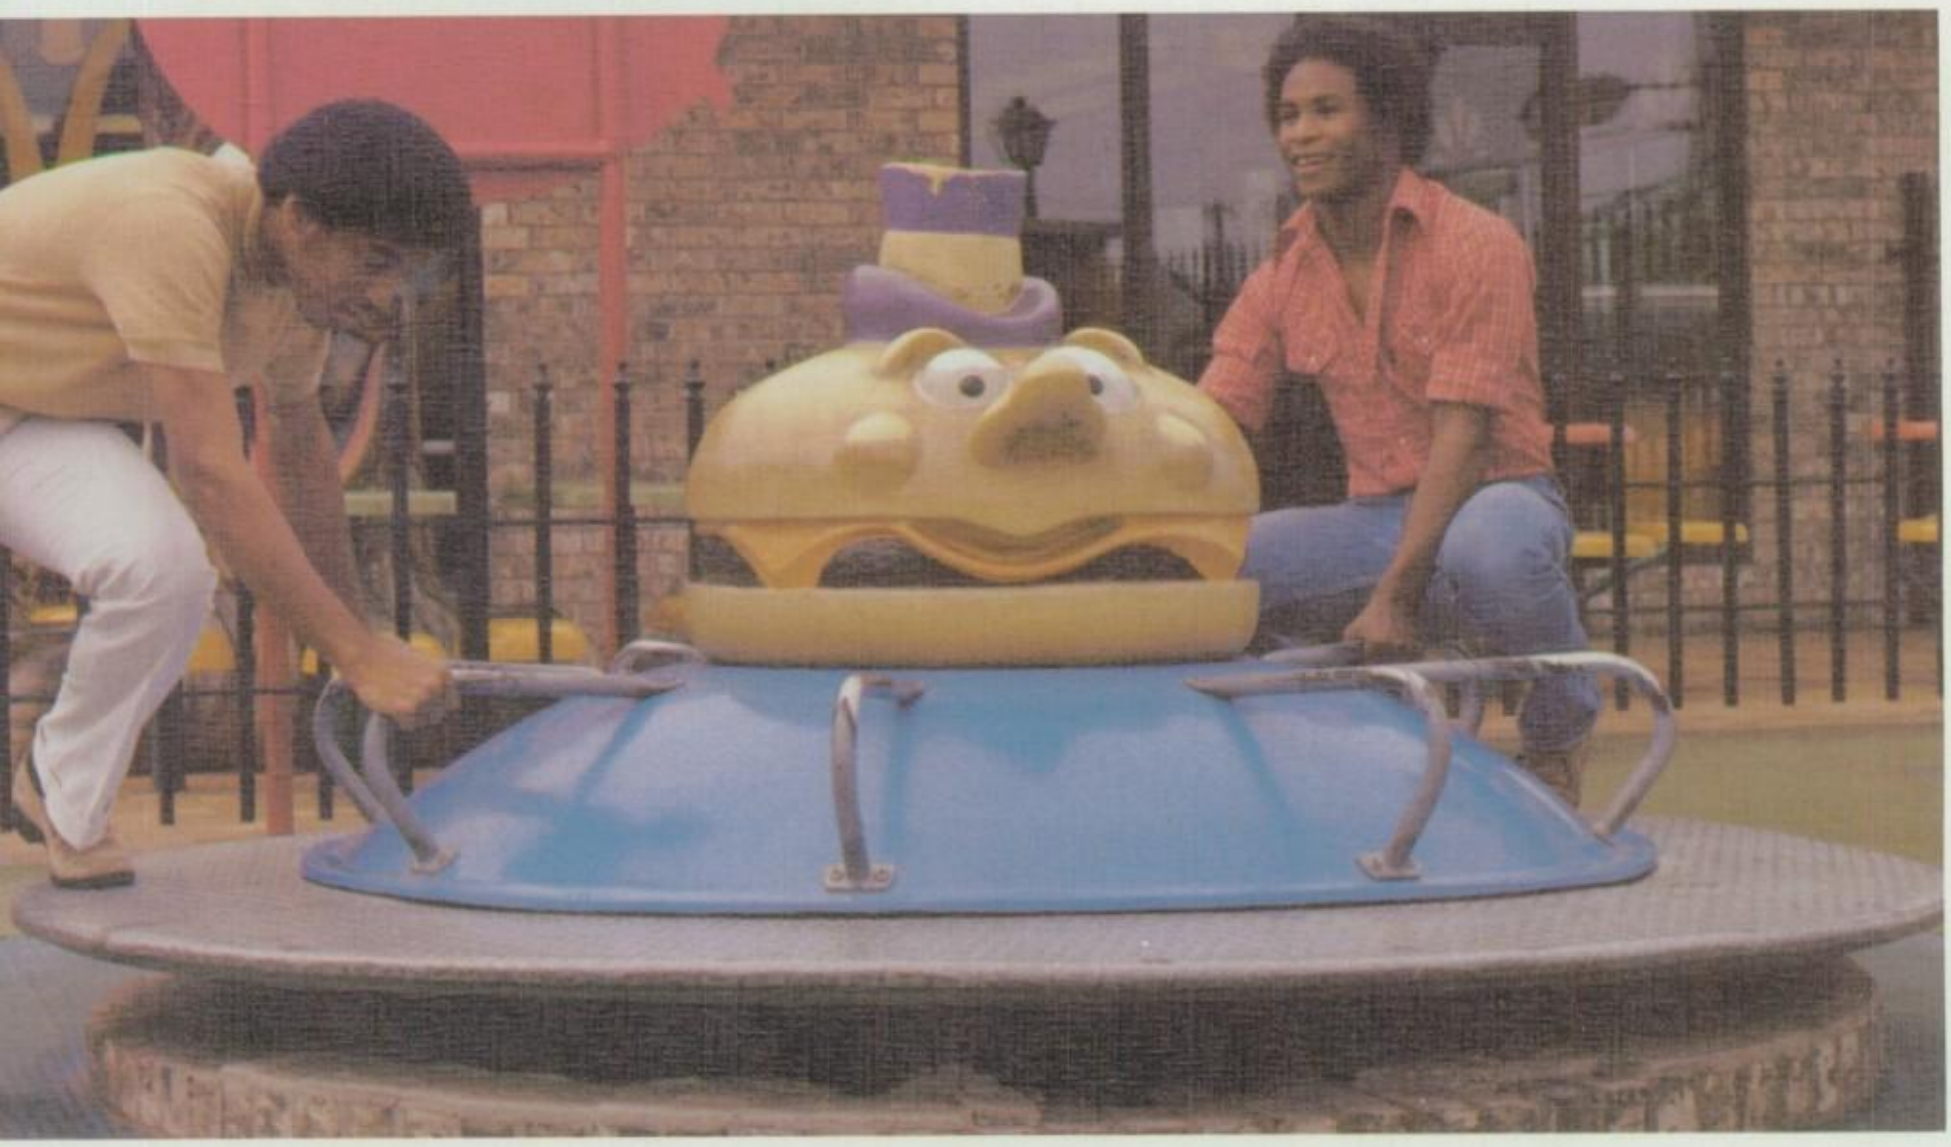


A CHANGE OF GOALS

The days of high school seem to go by faster with each passing year. As the time goes by, many things change. Our ideas, opinions, attitudes, and tastes seem to shift with the passing of each day. As all of these things change, so do the things that we do. Just fooling around and acting crazy have always been favorite things to do, but we go different places and do different things as we go through A CHANGE OF PACE.

Tony Hebert and Scott Darnold spend their extra time at Putt-Putt. Looking for a new sport shirt is Ron West. Joe Osborne and Thomas Cobb enjoy playing at McDonald's playland. Jeff Schoelen and Ron Watkins dream about one day driving the 89er's baseball buggy. Dee Dee Hewett visits with Darla Boyd and Kathy Wisdom at Crystal's.

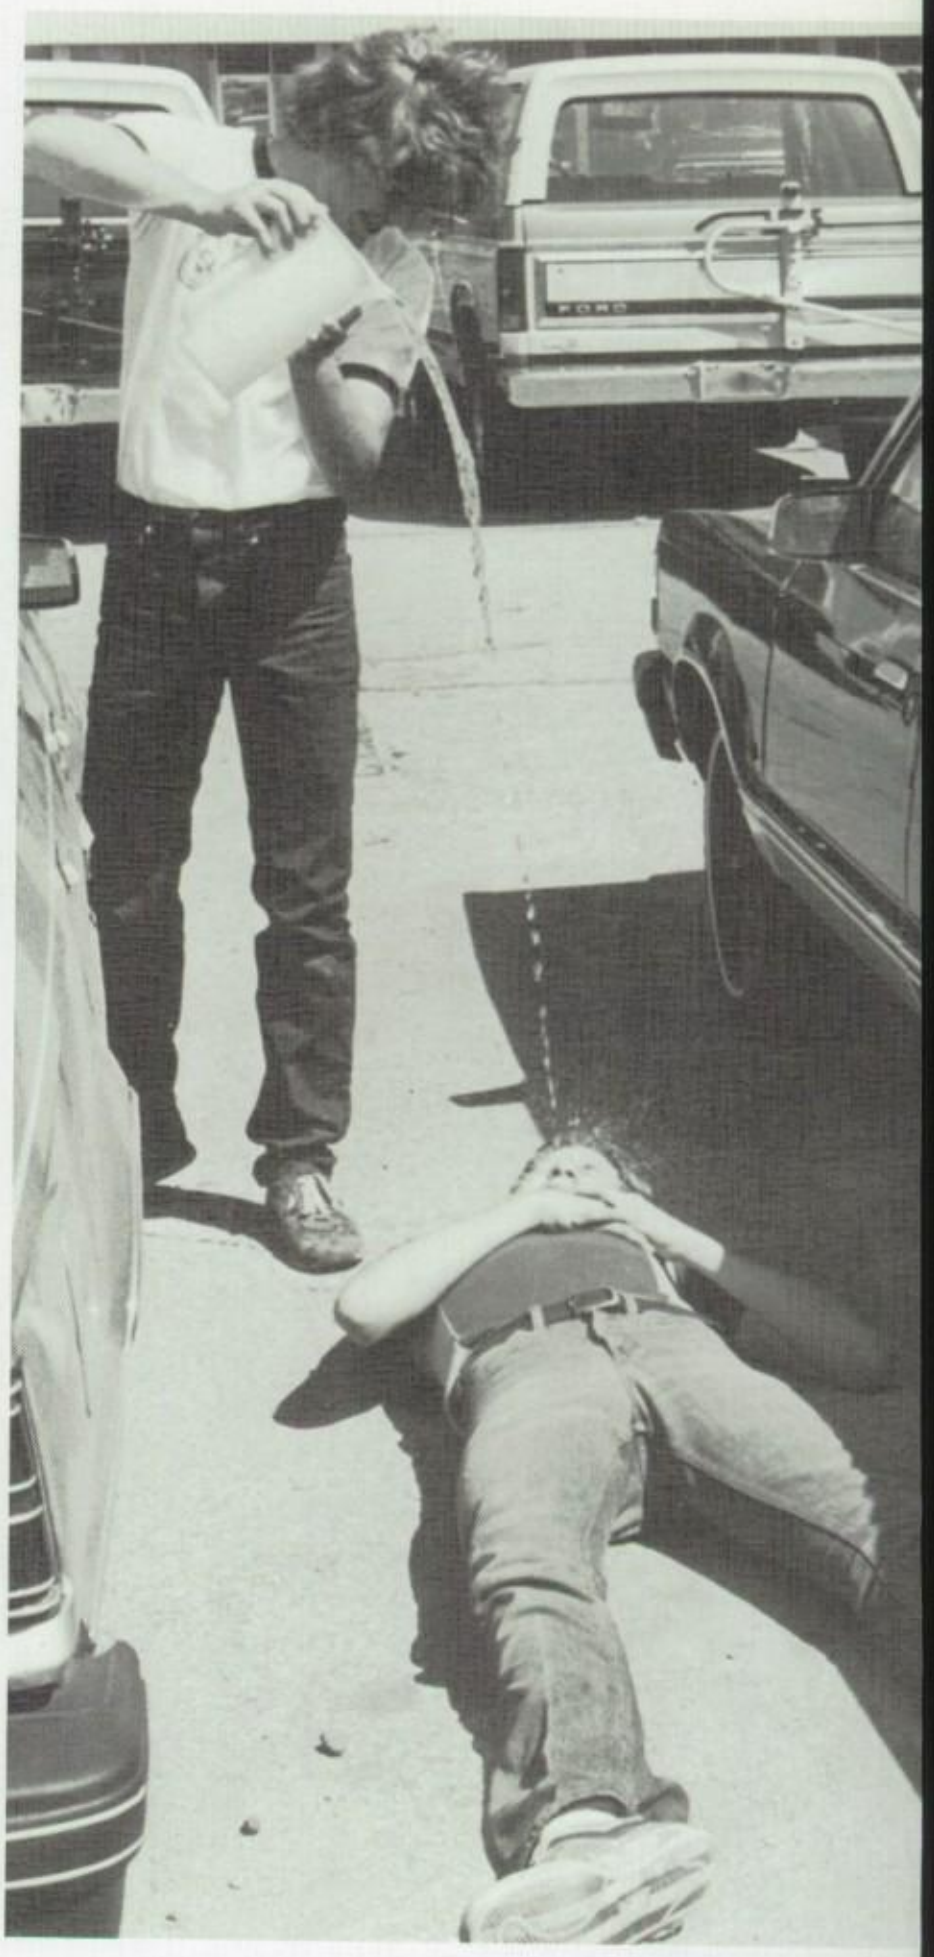




A CHANGE OF PACE

Prices are always changing along with the times. Many prices have reached astronomical peaks. Money is a very important part of our lives. Dating, keeping up a car, and buying clothes are just a few things that have gone up to heights that force many of us to find a job to support our pastime activities. Even though prices may impose a threat, we will continue to spend our hard-earned money on enjoying ourselves, fighting the times, and coping with A CHANGE OF PRICES.

Tim Anderson tries to revive David Gray, who is suffering from "sticker shock." Clarice Stewart checks the prices on class rings. Marcus Dixon and Ray Harris find that prices at Taco Bell have gone up. Vince Ellis, Greg Gracey, and Ronnie Williams help with their share of Jeff Natherton's gas money.



A CHANGE OF PRICES

PRIDE CAR

LAHOMA

One of the things that we seem to enjoy most in life is our clothes. We often spend a great deal of our time shopping for, trying on, and buying clothes. This usually goes on constantly because of the endlessly changing styles. Buying new things and showing them off, especially when they're bought with our own money, is a main pastime of ours. The types of clothing that we buy change constantly as we go through A CHANGE OF STYLES.

Jackie Hays wonders what Joe Shepherd plans to do. Scott Feland is one of his many Grant students who own trucks. Brian Echelle goes on his way to a day of riding. Future freshman Debbie Douglas checks out what Tammy Nelson and Kelly cordray will be wearing at Grant.

A CHANGE OF STYLES

PEOPLE

People. People with different backgrounds, different beliefs, different ideas, and different feelings. Everyone is unique and has a place in the world. That is what keeps it going and constantly changing. People. We are all just beginning to realize the many things that lie ahead of us, and we are trying to prepare ourselves for all of the challenges and goals of our future. We must grow and learn so that we will be able to help one another. We are strong. We are ready. We are PEOPLE.

PRINCIPAL

In his first year as principal at U S Grant, Dr. James Robinson stressed student involvement. He strongly supports the philosophy that students should have a voice in formulating policies which govern them.

Previously at John Marshall, Dr. Robinson received his doctorate at Oklahoma University after earning a bachelor's in political science and a master's in secondary school administration.

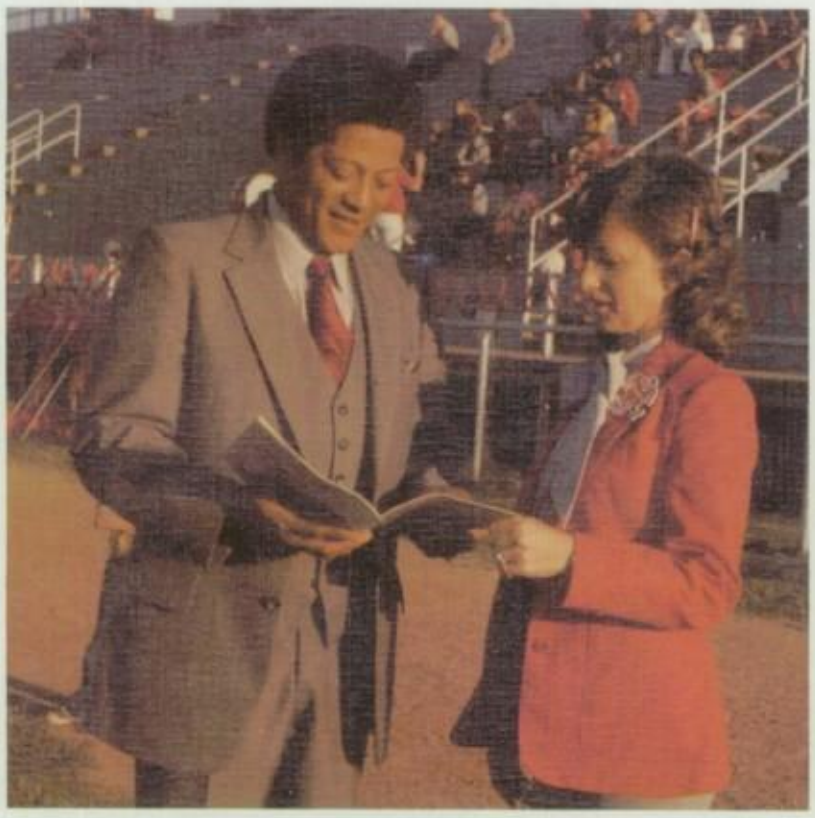
Both Dr. Robinson's son and daughter are college students.

An avid sports fan, Dr. Robinson tries to attend as many OU games as possible, and he never missed a General bout.

In addition to being a spectator, Dr. Robinson enjoys participating in hunting. He has a special pride in his hunting dogs.

His favorite hobby is collecting and restoring Thunderbirds.

Dr. Robinson is a sports enthusiast who likes to talk to the captains about their plays. He also likes to get involved in sports. In the fall the birds and his favorite dogs dominate his free time. He and one assistant principal, Mrs. Kay Barry, look at their new pictures in the program. Randy Rozin, Mr. U S Grant, makes Dr. Robinson feel at home. Dr. Robinson's office is always open to staff and students alike. When OU plays in Norman on Saturday, Dr. Robinson always gets an early start to the game. His favorite hobby is restoring Thunderbirds. He confers with his secretary Mrs. Rubye Lee about a memo.



ASSISTANT PRINCIPALS

Assistant principals were Mrs. Kay Barry, Mr. Ollie Cooper, and Mr. Jim Whittington. Mrs. Ann Douglas was activities director.

Mr. Whittington came to U S Grant from Capitol Hill this year. He was in charge of junior and senior discipline.

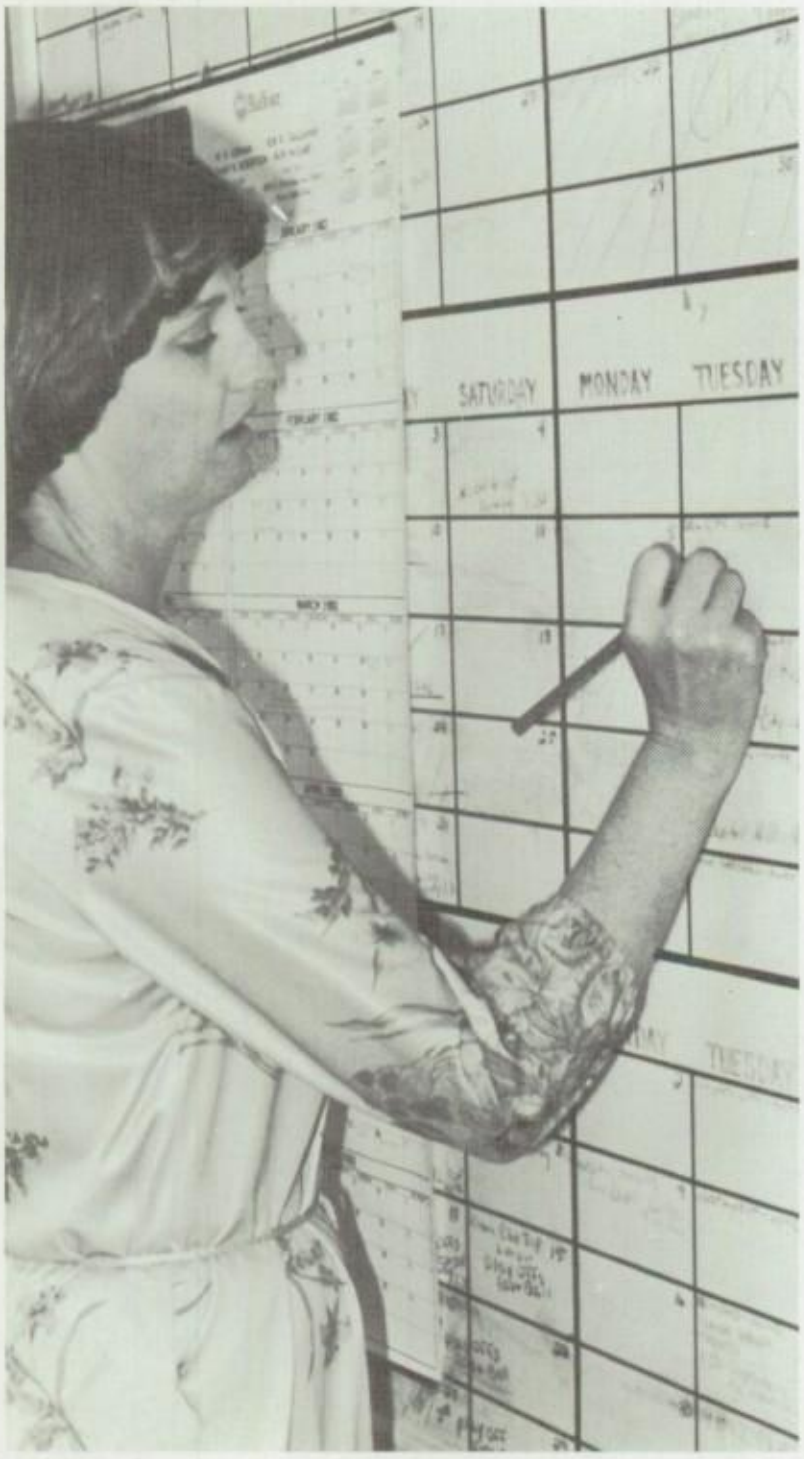
Mr. Whittington had been an administrator at Southeast, Jackson, and Webster earlier.

Mrs. Barry was again in charge of IBM, scheduling, and sophomore discipline.

Mr. Cooper maintained his responsibilities of locker assignments, distribution of supplies, and ninth grade discipline.

Mrs. Douglas was in charge of scheduling all activities. She also served as assistant softball coach.

Kay Barry, assistant principal, Ollie Cooper, assistant principal, Jim Whittington, assistant principal, Ann Douglas, activities director. Assistant principals Mr. Whittington, Mrs. Barry, and Mr. Cooper huddle over problems. Mrs. Barry confers with a parent. Mr. Whittington checks admit for signatures. Mr. Cooper gives change on a lost lock. Mrs. Douglas works on the activities schedule.



BOARD, COUNSELORS

The school board had some new members this year, and the counselors joined forces with Southeast and Capitol Hill for the first annual College Night at Grant.

Dr. Thomas Payzant again stressed the importance of academic achievement and coordinated the administration of standardized tests throughout the system.

Mrs. Thelma Parks was again director of counseling. The counselors struggled with enrollment which exceeded predictions.

Board members are Dr. Delbert Hamm, president, Shirley Darrel, Hugh Long, Floyd Donwerth, Betty Hill, Jean Brody, Susan Hermes, and Dr. Thomas Payzant. Mrs. Thelma Parks, Mr. John Moham, and Mrs. Harriet Pulley express alarm about some classes which got too big. Counselors are Mr. John Moham, Mrs. Thelma Parks, and Mrs. Harriet Pulley. Mr. Moham catches up on retirement news during a break. Dr. Hamm visits with Dr. Robinson at the first home game. Mrs. Parks was in charge of College Night. Mrs. Peggy Campbell, registrar, tends to her plant. Mrs. Harriet Pulley says "Hello, there, where have you been?"

FACULTY

The center of every teacher's life is his students. Although the going gets rough at times, most teachers will admit that they couldn't stay in the game if they did not basically enjoy their kids.

Many teachers took courses at one of the near-by colleges or universities. Their objective was to stay as up-to-date on their subject matter as they possibly could.

Some teachers who found their expenses exceeding their incomes still maintained part-time jobs in an effort to make ends meet.

Mr. Harold Crosley enjoys his junior English students. Mrs. Nancy Phelps found a student comment about Vive La France to be amusing. Miss Marybeth Buttermore pauses from making her lesson plans. Mr. Guy Smith illustrates the art of disguise.

Some teachers enjoyed automobiles as much as some students. They drove the very fastest and, the very prettiest. Others chose small and economical ones.

Some teachers were as fashionable in the classroom as some of the students were. A number of teachers sported designer clothes. Others wore homemade creations.

Teachers treasured their free time with their families and enjoyed sports as much as students.

Mrs. Julluette Brown gets into her new Corvette to go home. Mrs. Pat Wear, sporting Polo original, explains a math problem to her class. Mr. Severlan Vaughn and his son Brad arrive for a day of school in their MG. Mrs. Vicky Stewart tells her advanced cooking class how to use an electric oven for broiling. Mrs. Vickie Parker and Mrs. Debbie Gandy enjoy the fall in their Gloria Vanderbilt and Calvin Klein designer clothes.

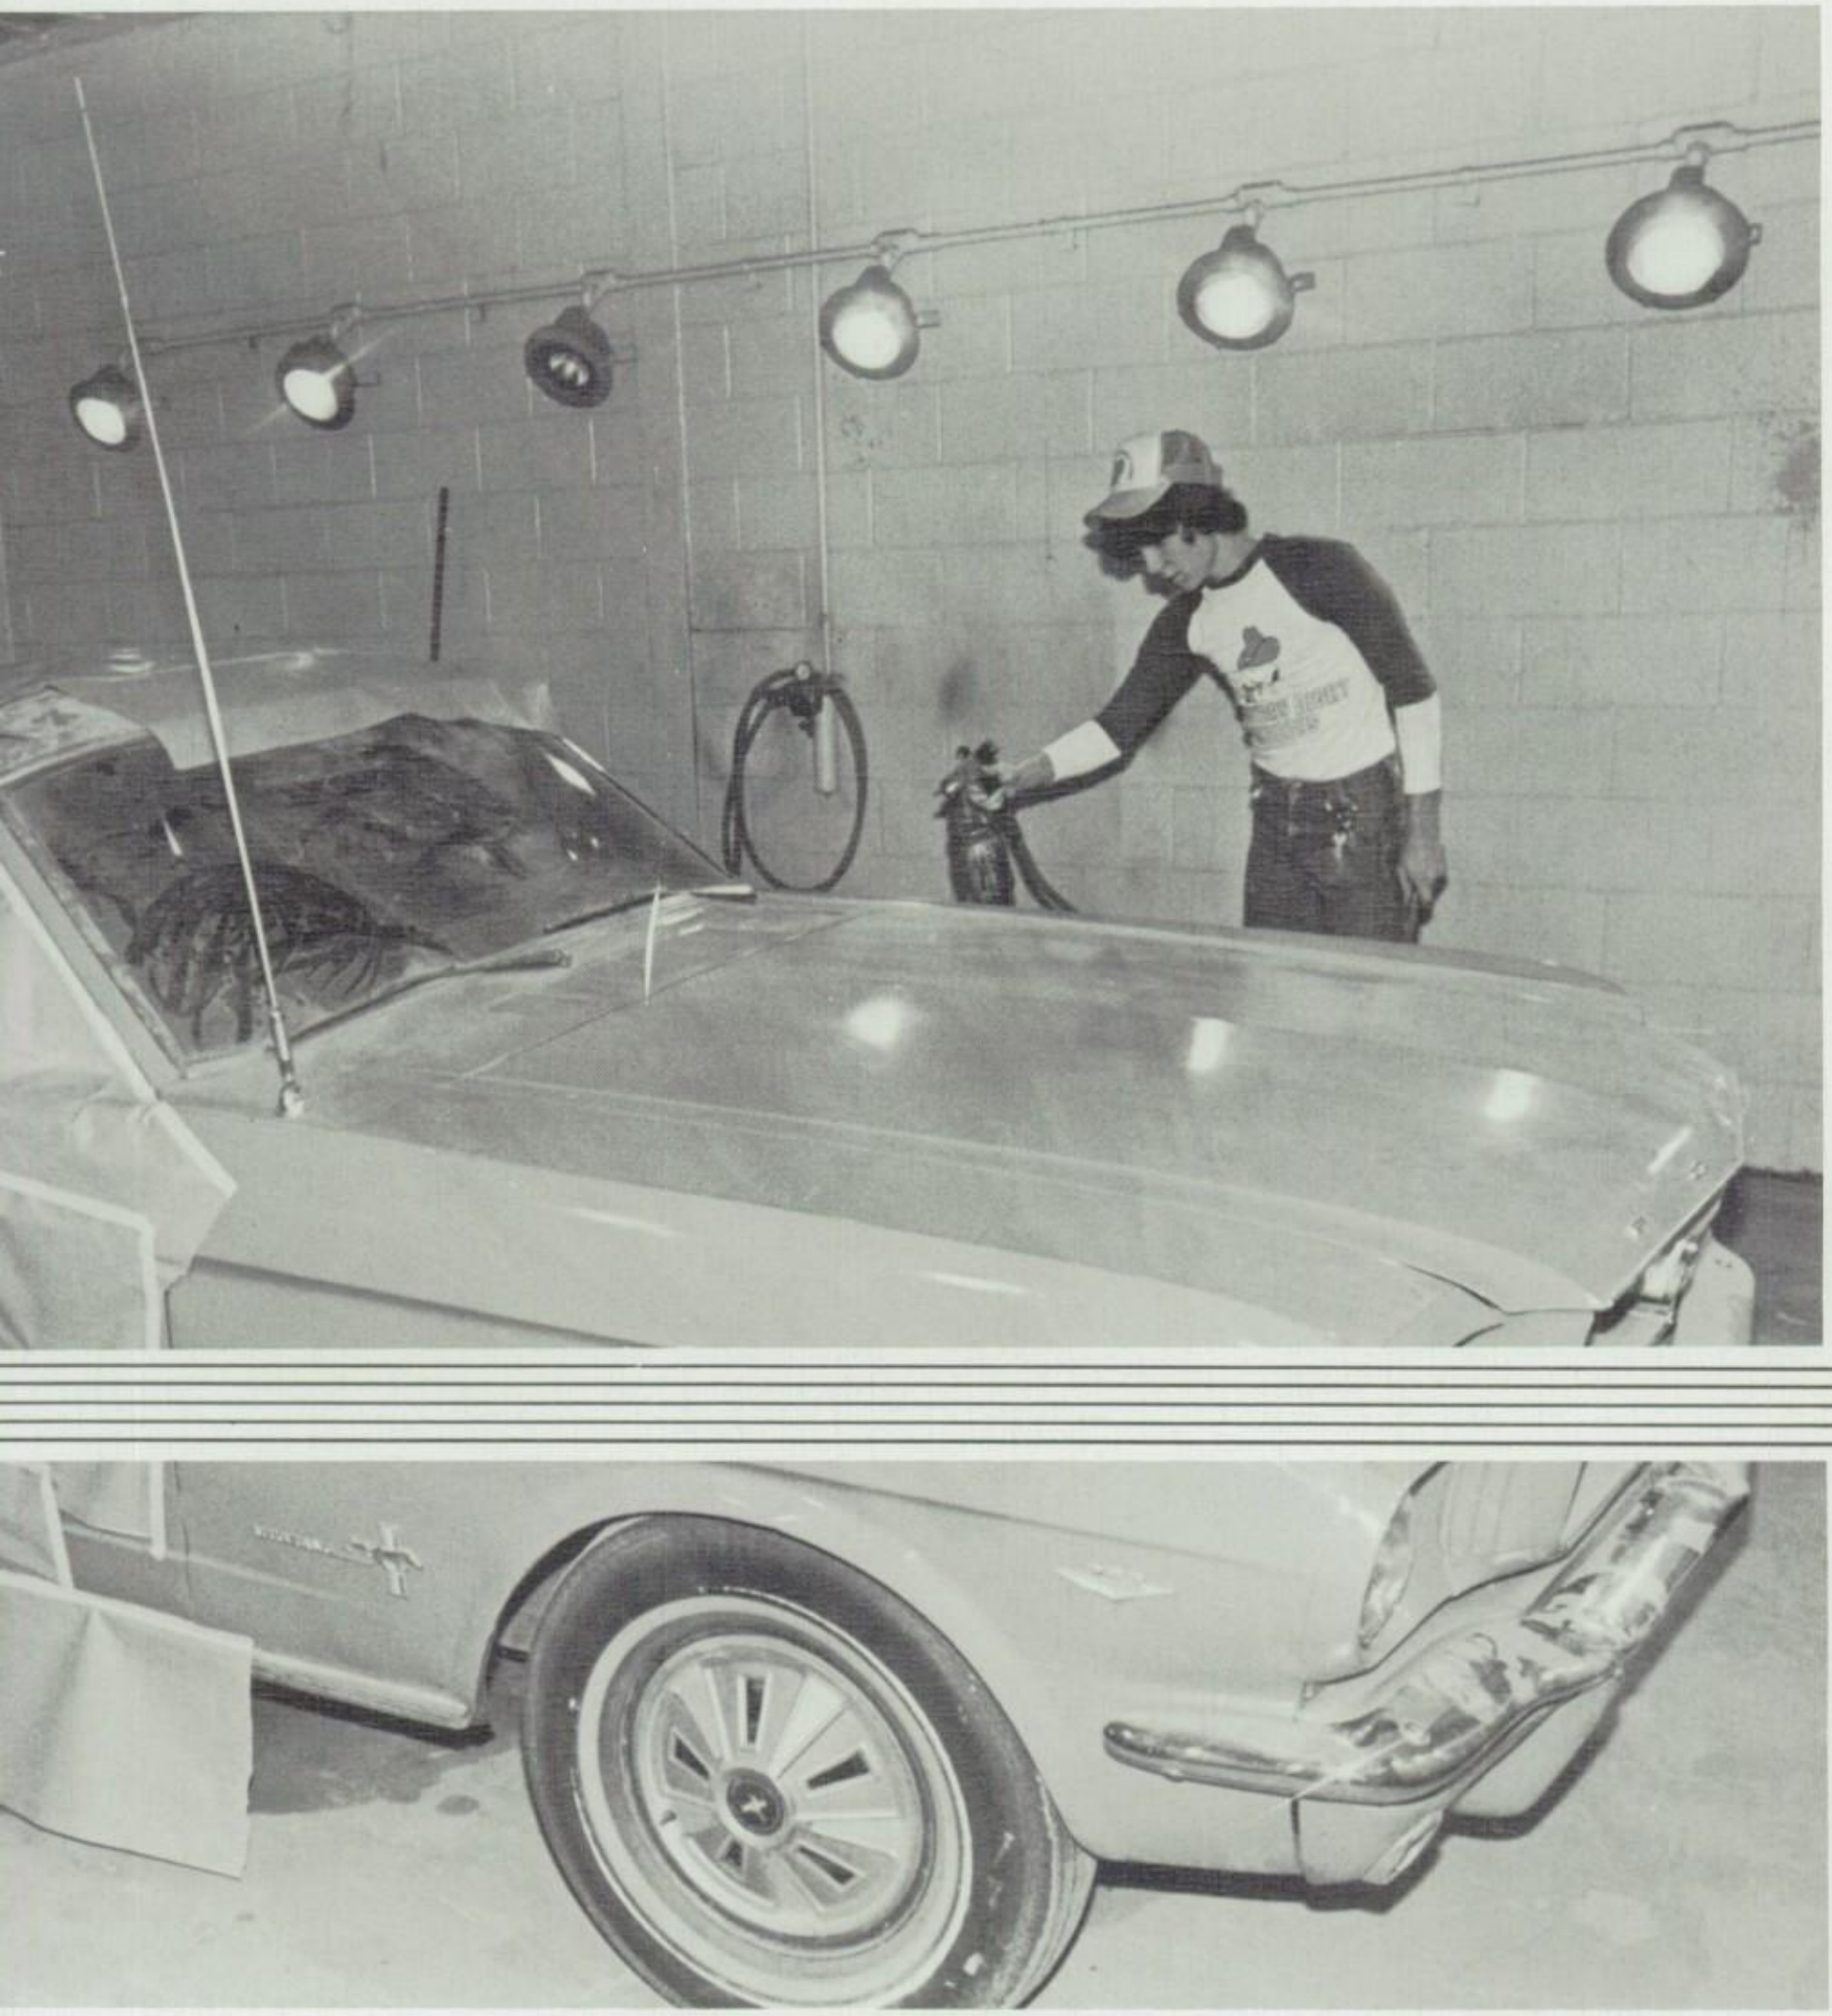
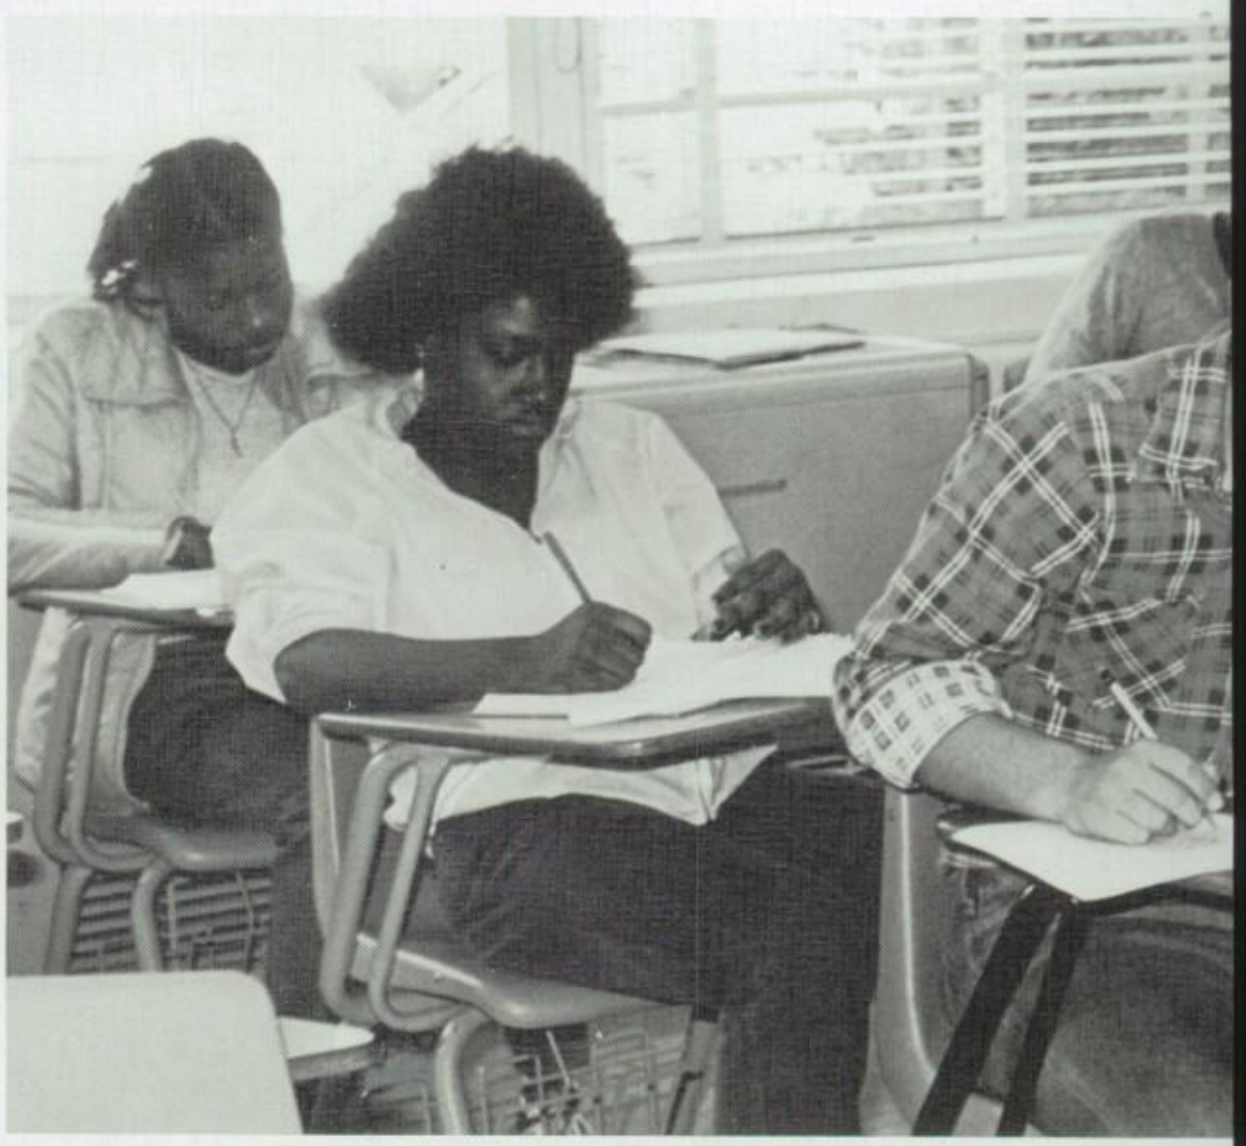
CURRICULUM

Curriculum. Many different subjects to choose from — to study — to further our education. We are all trying to prepare ourselves for our future. A big part of this preparation is studying. We must try to further our education to make our future a little better. We may often think that some of the subjects we have to study will not help us in the future, but we work at them anyway. In the future, we will probably find that we are very glad that we did. This is studying. This is learning. This is our CURRICULUM.



LANGUAGE ARTS

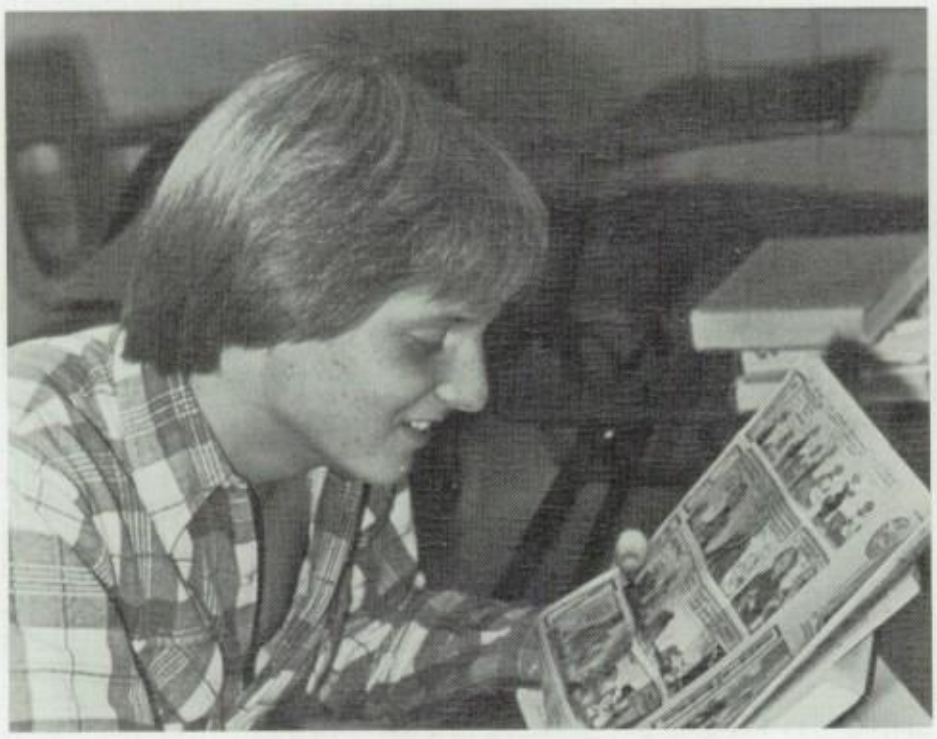


Because our language was considered to be the one tool by which we learned all others, we all took English every semester for four years. Some of us did not like it much, but we took it.

We did get some choices. We could take English literature or American literature when we were juniors and seniors. Those of us who knew we were going to college took advanced placement.

Some of us took advantage of learning either French or Spanish too.

Students in Mrs. Hoffman's freshman English class get with the program. Luther Walker and Eddie Wade discuss their ideas for a composition in English. George Sawyer and Colleen Kreig are shocked by some of their grades in Basic Composition for Mr. Gary Watson. Debbie Craig, John Stone, Laura McAlester and Larry Rudiger lead the discussion in Mrs. Christine Baugh's advanced placement English.



MATH

In standardized tests, our students placed in the top ranks in math.

With more and more emphasis on the technological in our society, math concepts became practical in a discernible form. Those of us who appreciated the advanced applications of math concepts took calculus, trigonometry, and advanced placement.

Those of us who knew our talents lay in other directions took somewhat less challenging courses like general math and business math.

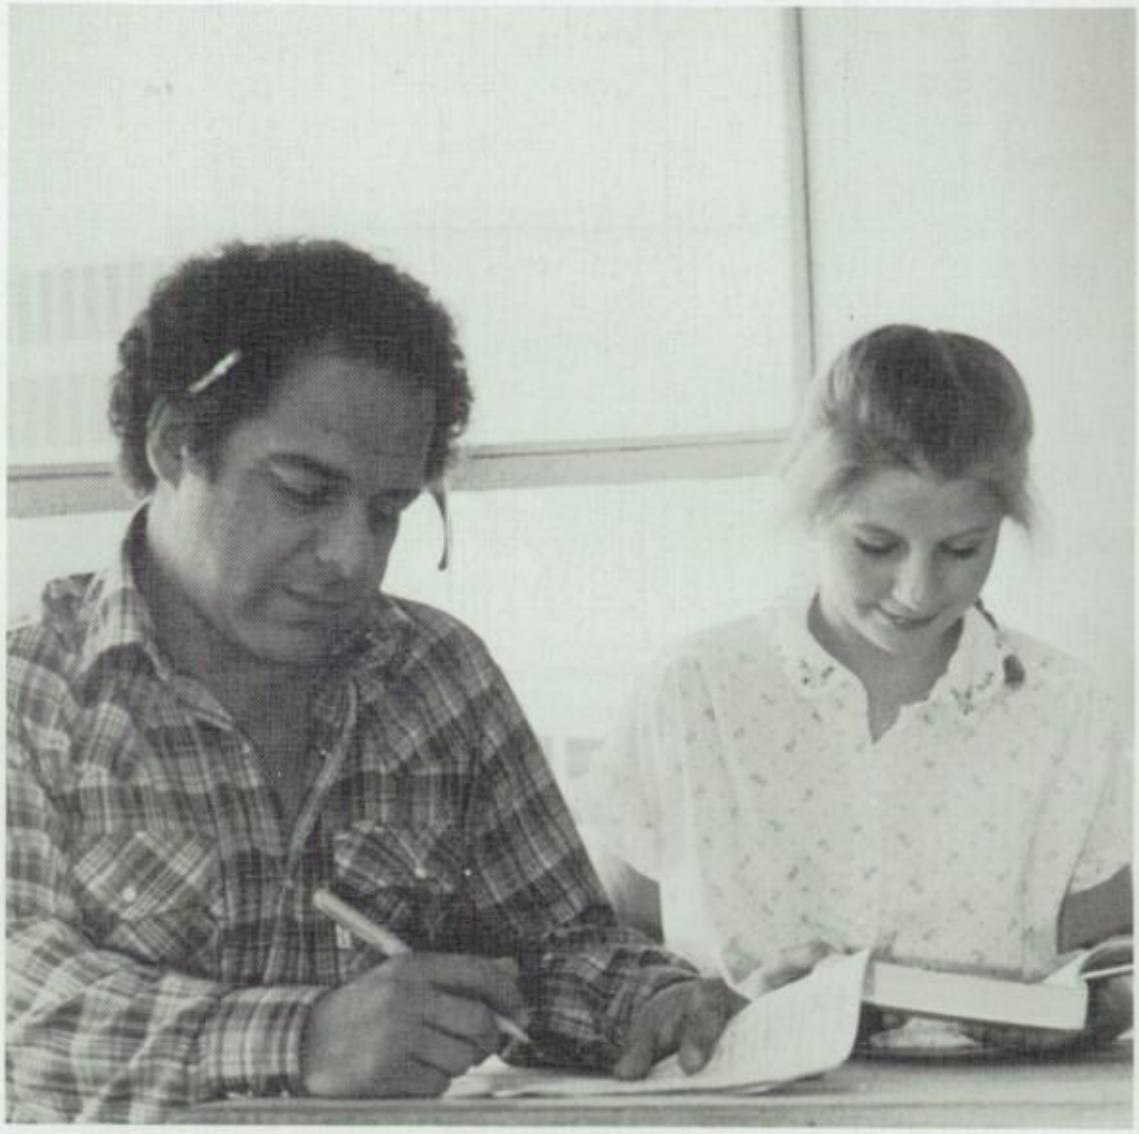
Brad Vaughn gets somewhat distracted in his advanced placement calculus class. Dee Dee Hewett puts a trig problem on the board. Regina Hayes, Christeen Tunnell, and Tony Neasbitt take advantage of the overhead in working problems for general math. Billy Bingham does the assignment Mr. Allen Dukes gave him in vocational math. Terry Hamm, Mussie Nugusse and René Vowell unpack new equipment to use in Mr. Blackmon's physics class.

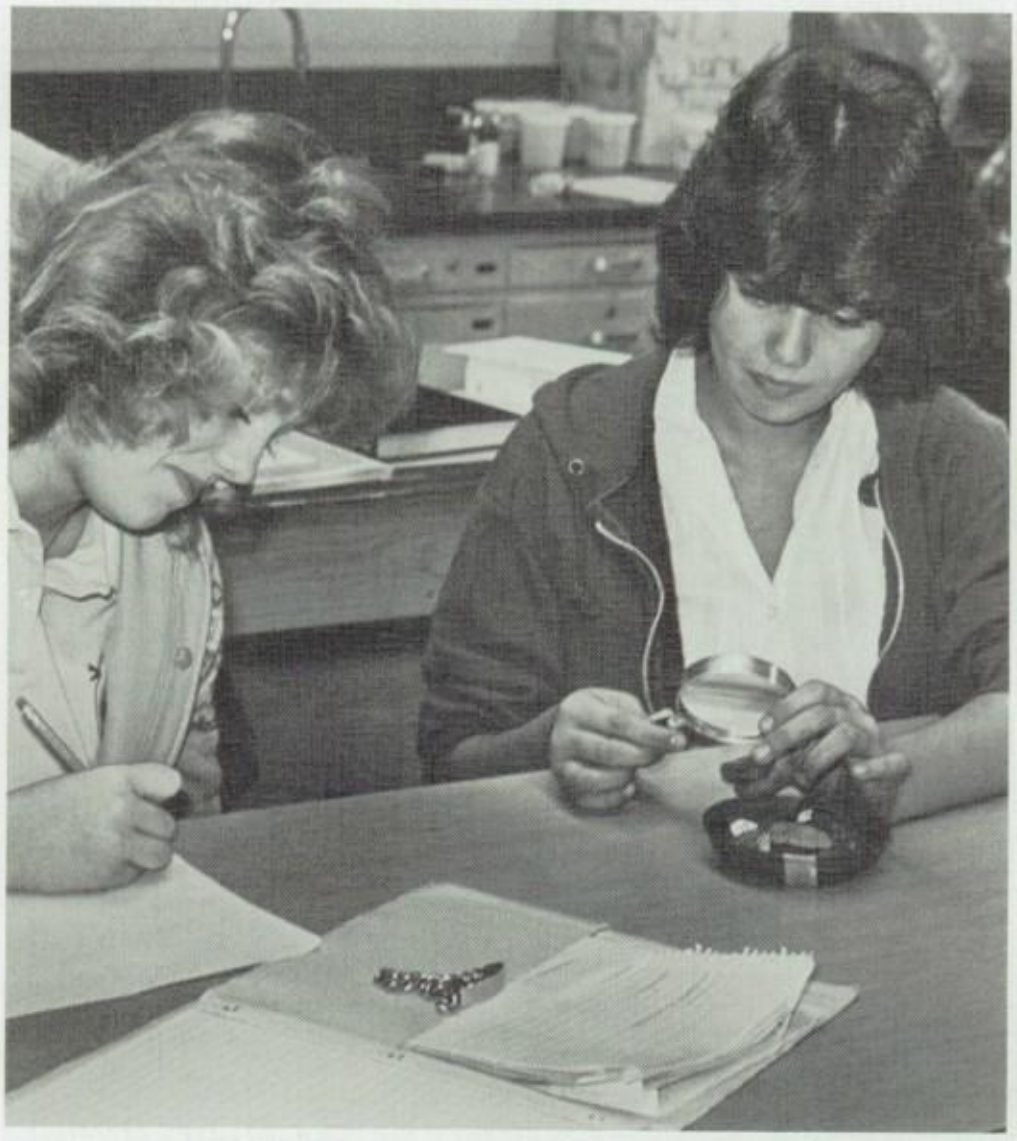
SOCIAL STUDIES

A knowledge of our past has always been considered vital in helping us to understand our present. That's why we had to take American history.

Those of us who were curious about the Indian history of our own state took Oklahoma history as an elective. Some of us took world history. Other electives in the social studies department were health for those who couldn't take physical education; sociology for those who wanted to understand more scientifically the societal growth and patterns; psychology for those who desired a further knowledge of human behavior; and law and you for those who were interested in a practical application of law in our lives.

Renee Greenroyd turns in her history assignment. Leah Scott and Tom Negusse examine a map in Neill Choate's Oklahoma history class. Susie Lambeth and Brandy Dies look at stock reports for law and you class. Mr. Lyle Hostetter's sociology class gets in a discussion. Kim Ealy leads the health class, while Mr. Lewis Quintane does paper work.





SCIENCE

Only one year of science was required for graduation, and we were able to pick the course we took to fulfill that requirement. Most of us chose biology or general science. Fewer of us elected to take chemistry because we doubted our ability to cope with the more advanced science course.

We knew that a scientific understanding of our world about us was important for us to function intelligently. We certainly appreciated the importance of our understanding our own bodies.

Candy Smith and Patté DiGregorio examine rocks in earth science. Kim Williams and Christa Sowell are intrigued by the remains of an alligator's jaw in general science. Anita Bennett and Vernon Kilgore do a lab assignment in biology. Jeff Hewett and Tracy King mix their solutions in chemistry.

PHYS. ED.

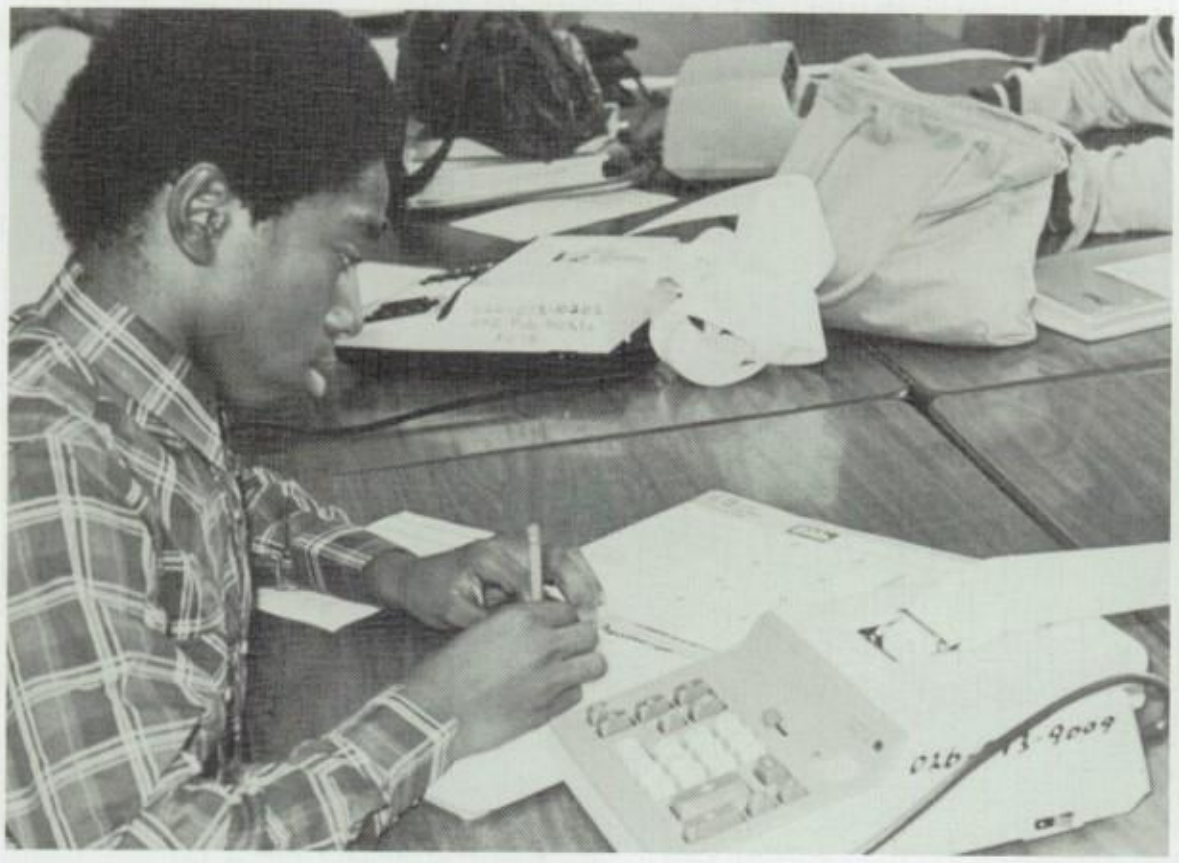
With physical fitness in the forefront in the entertainment media these days, we were conscious of its importance both for health reasons and social adjustment reasons.

It has become obvious to us that active people are not only healthier. They are happier; therefore the one physical education credit required for graduation was very palatable to us.

We especially enjoyed the growing number of electives in the physical education department.

The pyramid goes up with Teri Barnes, Tina Gulledge, Lisa Tinkham, Stephany Shipley, Jana Gooding, and Tammy Boyanton. Susan Brown, Kristin Herring, and Dusty Thorton watch Pam Lewis fly through the air with the greatest ease in gymnastics. Janet Harris, captain of the drill team, sports a homecoming mum, while members of the squad team, Tonda Nero, Jackie Hayes, Rae Sheryl Summers, and Teri Adams, practice. A gym class plays volleyball.

CAPTAIN



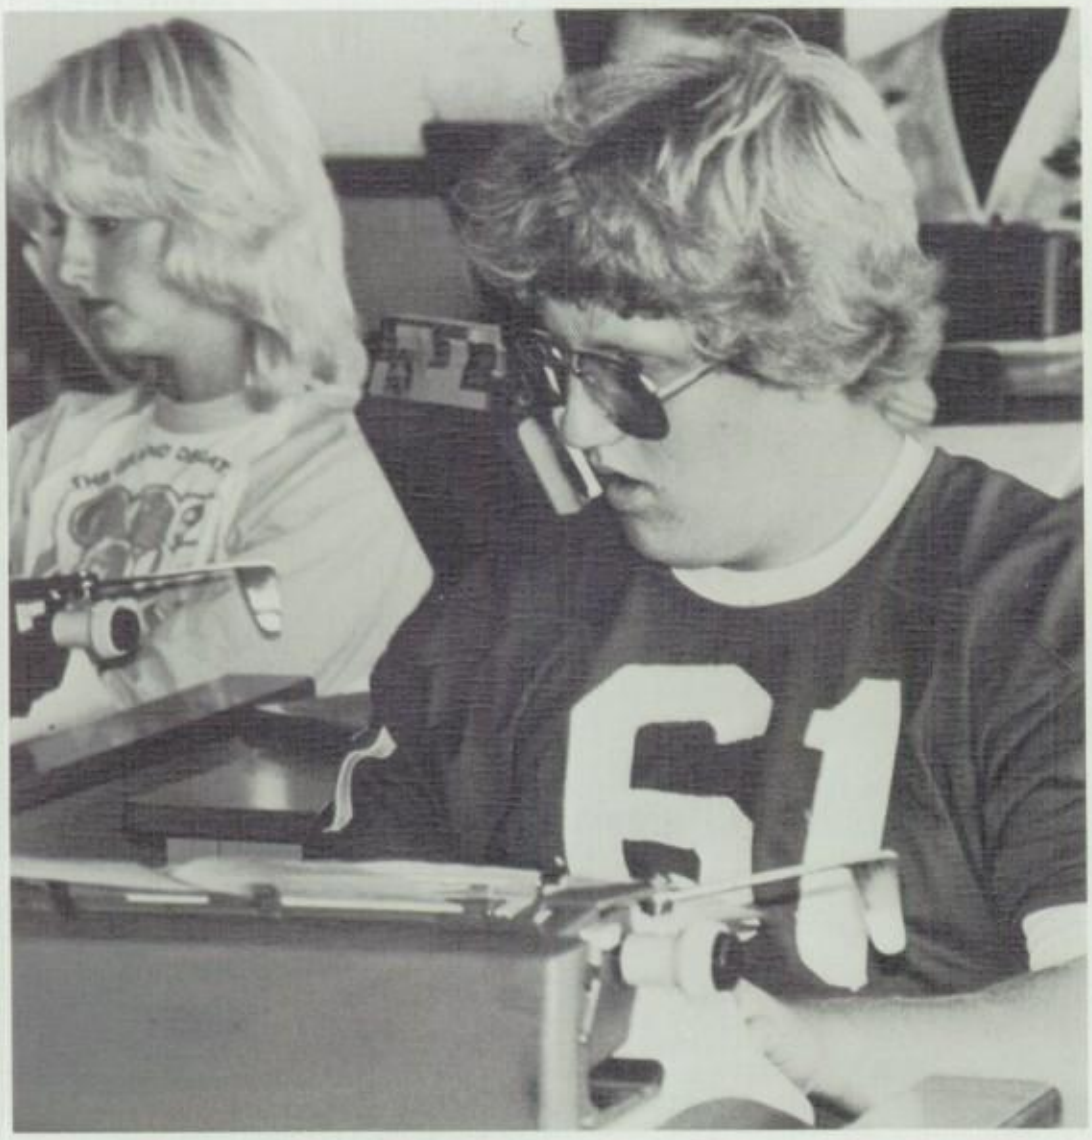
BUSINESS

One of the most pressing questions in our minds was how will we earn our living to feed ourselves when we get into the cruel cold world.

Many of us knew that we would end up in some area of business, so we got ahead of the rush and took basic skills courses like typing and business machines. We went even further with office practice and shorthand.

A few of us took cooperative office education which meant that we practiced the skills we were learning on jobs in the afternoons.

Elian Nash completes his business machines assignment. Lantz Smith and Lisa Smith share their accounting frustrations. Scott Hill concentrates on his typing speed. Tasha Coleman and Rhonda Morgan practice filing in office practice. Kecia Hanley sweats her dictation in shorthand.



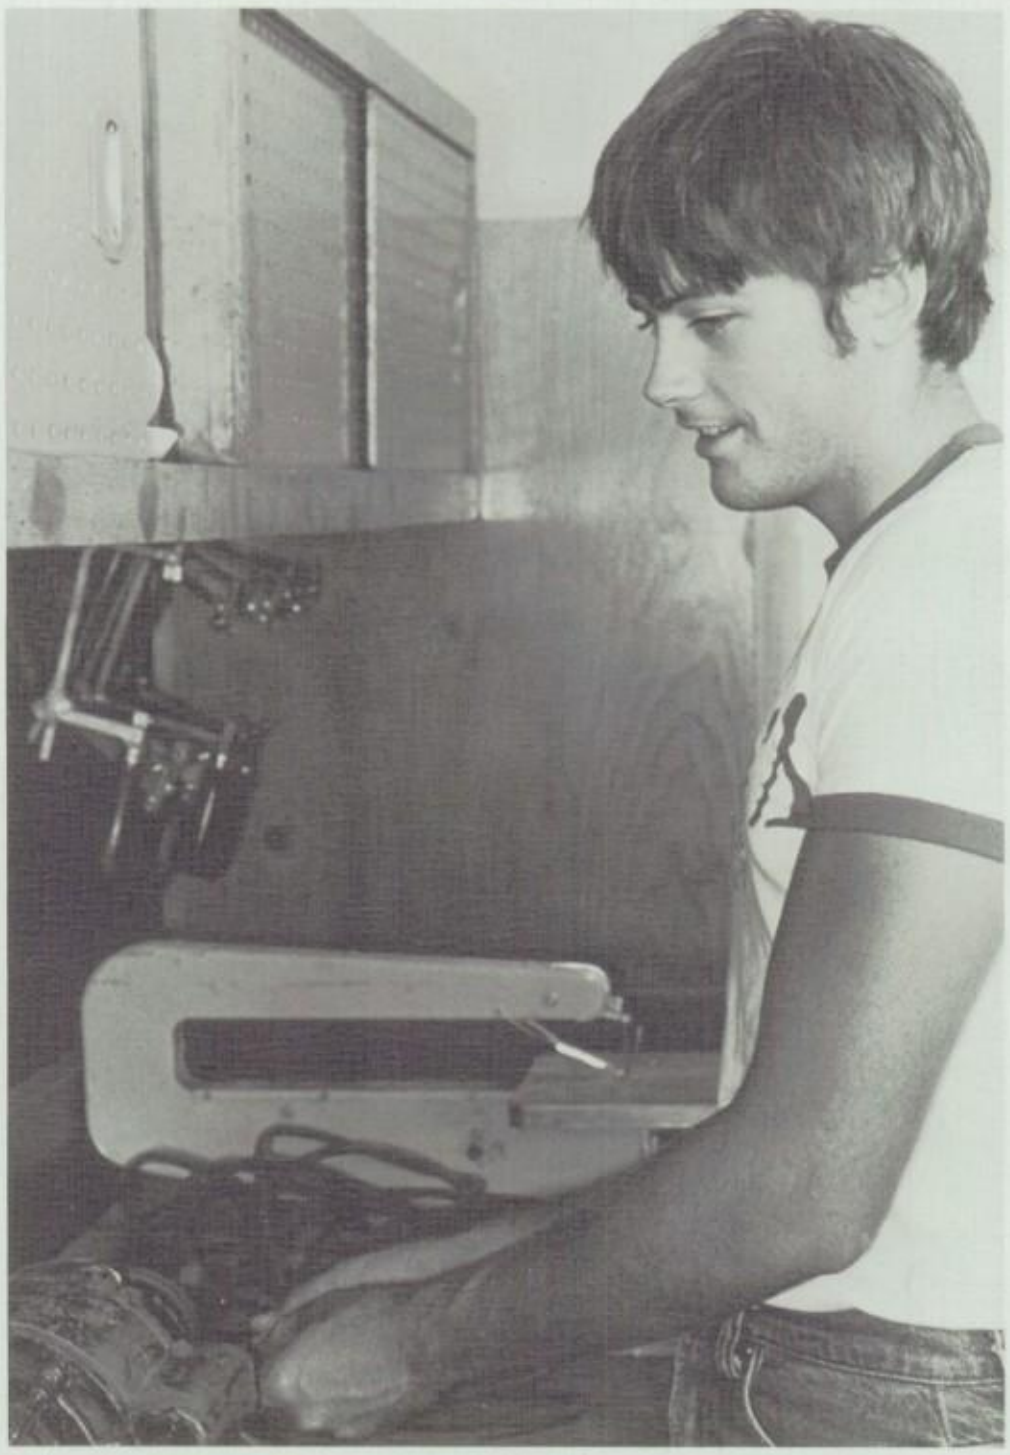
FINE ARTS

In a world which anticipates that people will have more free time in the future, a greater emphasis is put on fine arts so that citizens will be able to constructively use that increasing free time.

That is the reason we saw the fine arts department expand under our very noses. More variety of art classes, music classes and speech classes was offered than ever before.

Speech, debate, and drama were united under the supervision of Mr. Guy Smith when Mrs. Jayne Thompson retired.

Geraldine Hubbard, Lisa Connell, and John Genn practice with the wind section. Vance Conallis, Darla Boyd, Ralph Thomas, and Paula Pribble practice a new arrangement in choir. Mike Powell molds a special piece in jewelry. Cathy Stout does a design in art.



FANS

HOME EC.

The days of women's liberation brought also the days of men's liberation. No longer was a woman confined to "women's work," and no longer was a man confined to "a man's world." Therefore the stigma of having only women in home economics classes was lifted, and men were welcomed.

Those of us who were interested took advantage of home decorating and child development as well as cooking and sewing.

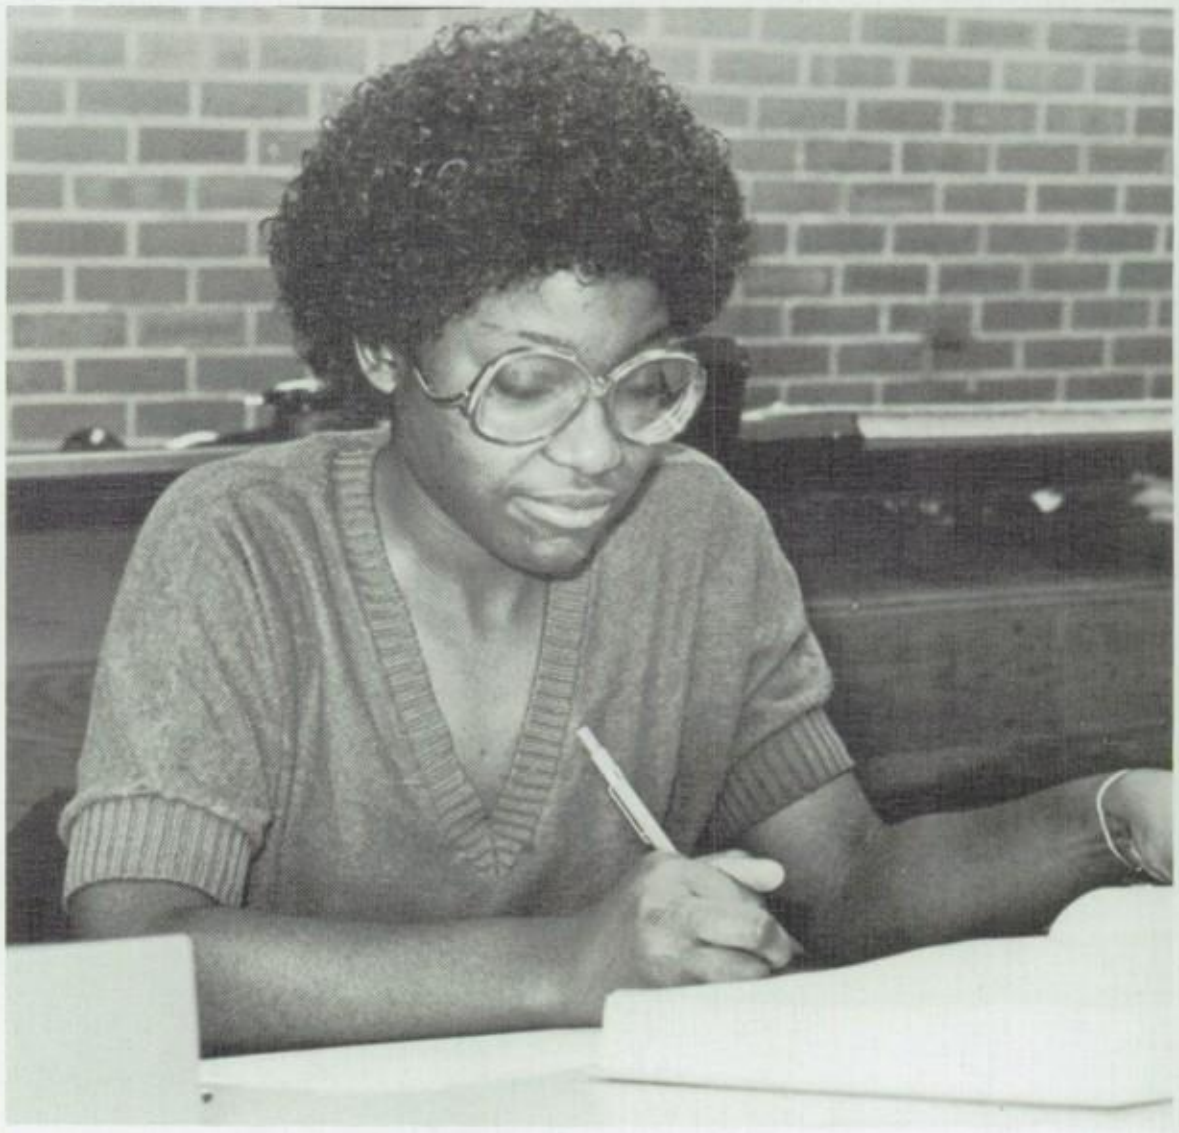
Shelly Brown, Deana McCoin, and Becky Humphreys, follow the recipe in cooking class. Andy Gowens, Lisa Ober, and Annette Walker get artistic as they paint the home decorating class. Gina Kerford and Demetria Gilliam help Camellia Robinson figure out how to cut the pattern pieces in sewing. Lisa Hall and Angie Goodwin study about the foetus in child development. Sheila Ortiz heats water for a recipe in cooking.

VOCATIONAL

Although a school board decree provided that all vocational classes would be in the area vocational schools within another year, the curriculum offerings remained substantially the same as usual this year.

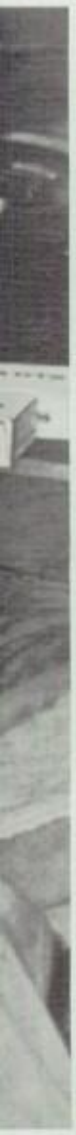
Auto mechanics, body repair, welding, upholstery, woodwork, cabinetmaking and cosmetology offerings were maintained. In addition, drafting and distributive education were available.

Troy Spradling puts the finishing touches on the showcase display for DE class. Brett Graham cuts a board for a wood work project. Mr. John Savage shows Teresa Schoon the correct way to use a simulator in Drivers Ed. Bobby Barnes works on a project in welding. Francis Burleson works on a layout design in drafting.



LAN-CO
INC

VOCATIONAL



As colleges and universities have had expansion and financial problems in recent years, a resurgence of vocational education has been evident.

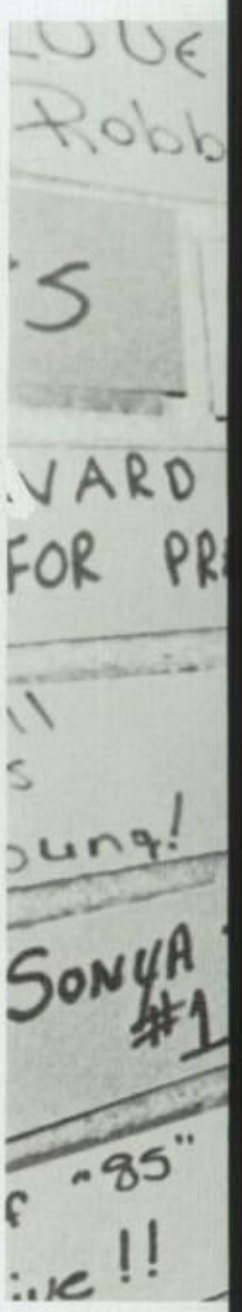
Many college graduates have had difficulty in locating positions but vocationally trained people have had abundant job opportunities. In addition to that, many vocationally trained individuals earned higher pay checks than college graduates. Therefore, the emphasis on vocational education continues to grow.

Ricky Young, Terry Deveney, and Bruce Brown are working intently on an automobile in auto mechanics. Chris Cato and Luther Walker fire up the equipment to work on projects in welding. Mrs. Emanuel shows Patty Navarro how to practice rolling hair on wigs in cosmetology. Berlinda Thompson washes a Carver student's hair.

ORGANIZATIONS

Organizations. Clubs and groups. Many people really enjoy belonging to one or more of them. Most of us really like to have fun, and one of the best ways is to join a club. Clubs inspire togetherness, cooperation, and many other things. Clubs sometimes take up where school leaves off. We learn many things by belonging to a club, and we have a great time too. These are learning experiences. These are a very fun part of school. These are ORGANIZATIONS.

Council wins district presidency



Student Council concentrated on getting students involved. They won district presidency and attended summer workshops at Central State University and Lake Texoma.

Under the leadership of Bobby McDougal, president, the council planned many activities to get students involved, including the Teacher Turkey contest, and Twirp Week. They planned service projects such as a Christmas party for Rancho Village elementary school and the United Appeal Brick Sale.

Sheila Ortiz shows the leadership class the t-shirts they are going to sell. Mary Garcia and Jana Gooding take orders for t-shirts. Brenda Rawlings enjoys reading the bricks. Kristi Nance and Jennifer Cannon have fun with the number 1 hands the Student Council sold. Mary Garcia addresses the leadership class.

Language, math groups socialize

The foreign language club, consisting of both French and Spanish students, did some things together and some things separately. Mu Alpha Theta had several social get-togethers.

The foreign language club took field trips to restaurants to learn about foreign food and cultures.

One of the French class' main activities was Kings Day celebrated in January with everyone eating cake. The Spanish class' main activity was their fall fiesta. They also spent a lot of time studying Mexican and Spanish art.

Mu Alpha Theta had a teacher appreciation dinner for the math teachers. They took part in Engineering Day at Oklahoma University.

Velensha Stewart recites in French class. Ronnie West and Tim Anderson play a real joke on Mrs. Pat Wear. Rhonda Morgan is honored to have King Ronnie Ross doing the honors. Kelly Minyard and La Shawn Martin are intrigued with the pinata. Carment Farrell and Janet Reid try to keep the secret as to the whereabouts of Mrs. Wear's overhead. In Spanish Patricia Scott and Tony Howard learn to sing Jingle Bells.

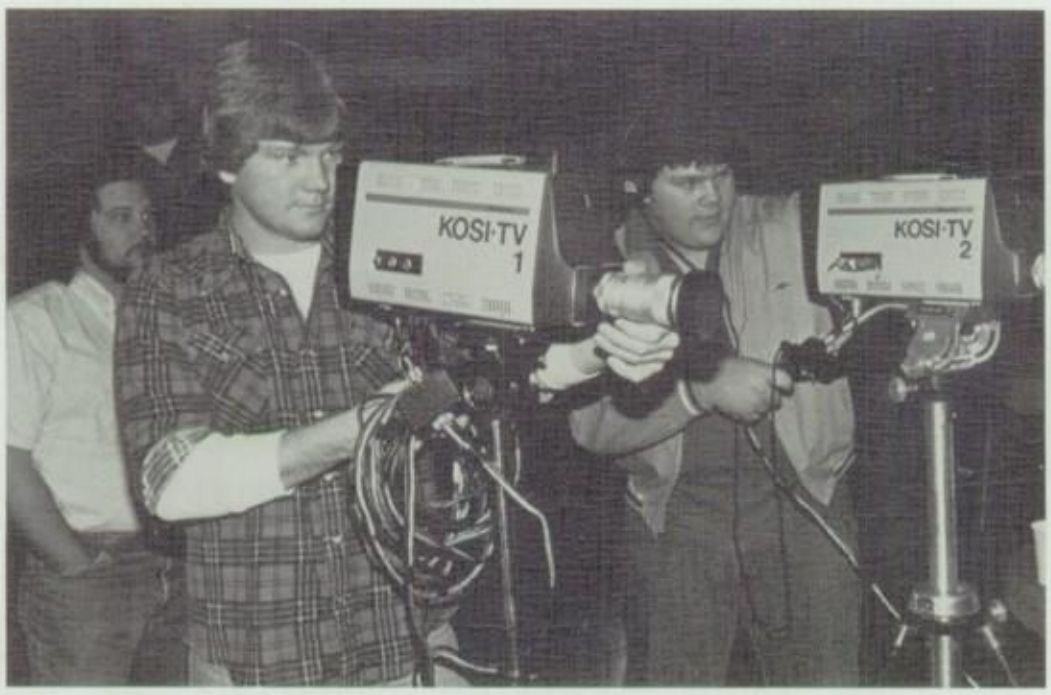
Science club travels; TV bugs tape

The Science Club highlighted their year with several excursions to study rock formations and earth stratification in Oklahoma, while the Radio-TV club concentrated on applying their new skills of interviewing and taping.

Under sponsors Mr. Jack Nichols and Mr. Lathon Johnson, the science club had guest speakers at their meetings.

With Mr. Guy Smith as instructor the Radio-TV group extended their already elaborate control room. They tried to film all major school activities.



Laurie McAlister gets a thing going with the handsome skeleton in the science department. Jeff Walden and Mike Owens do the honors and interview filming. Angela Manning and Kevin Mauksey go over the time schedule for a taping. Tommy Seely and Ronnie Williams take their news set to a scene for taping. Jayne Creed, Ronnie West, Carment Farrell, and Carl Bell follow a map to plan their route for the next Science Club trip.

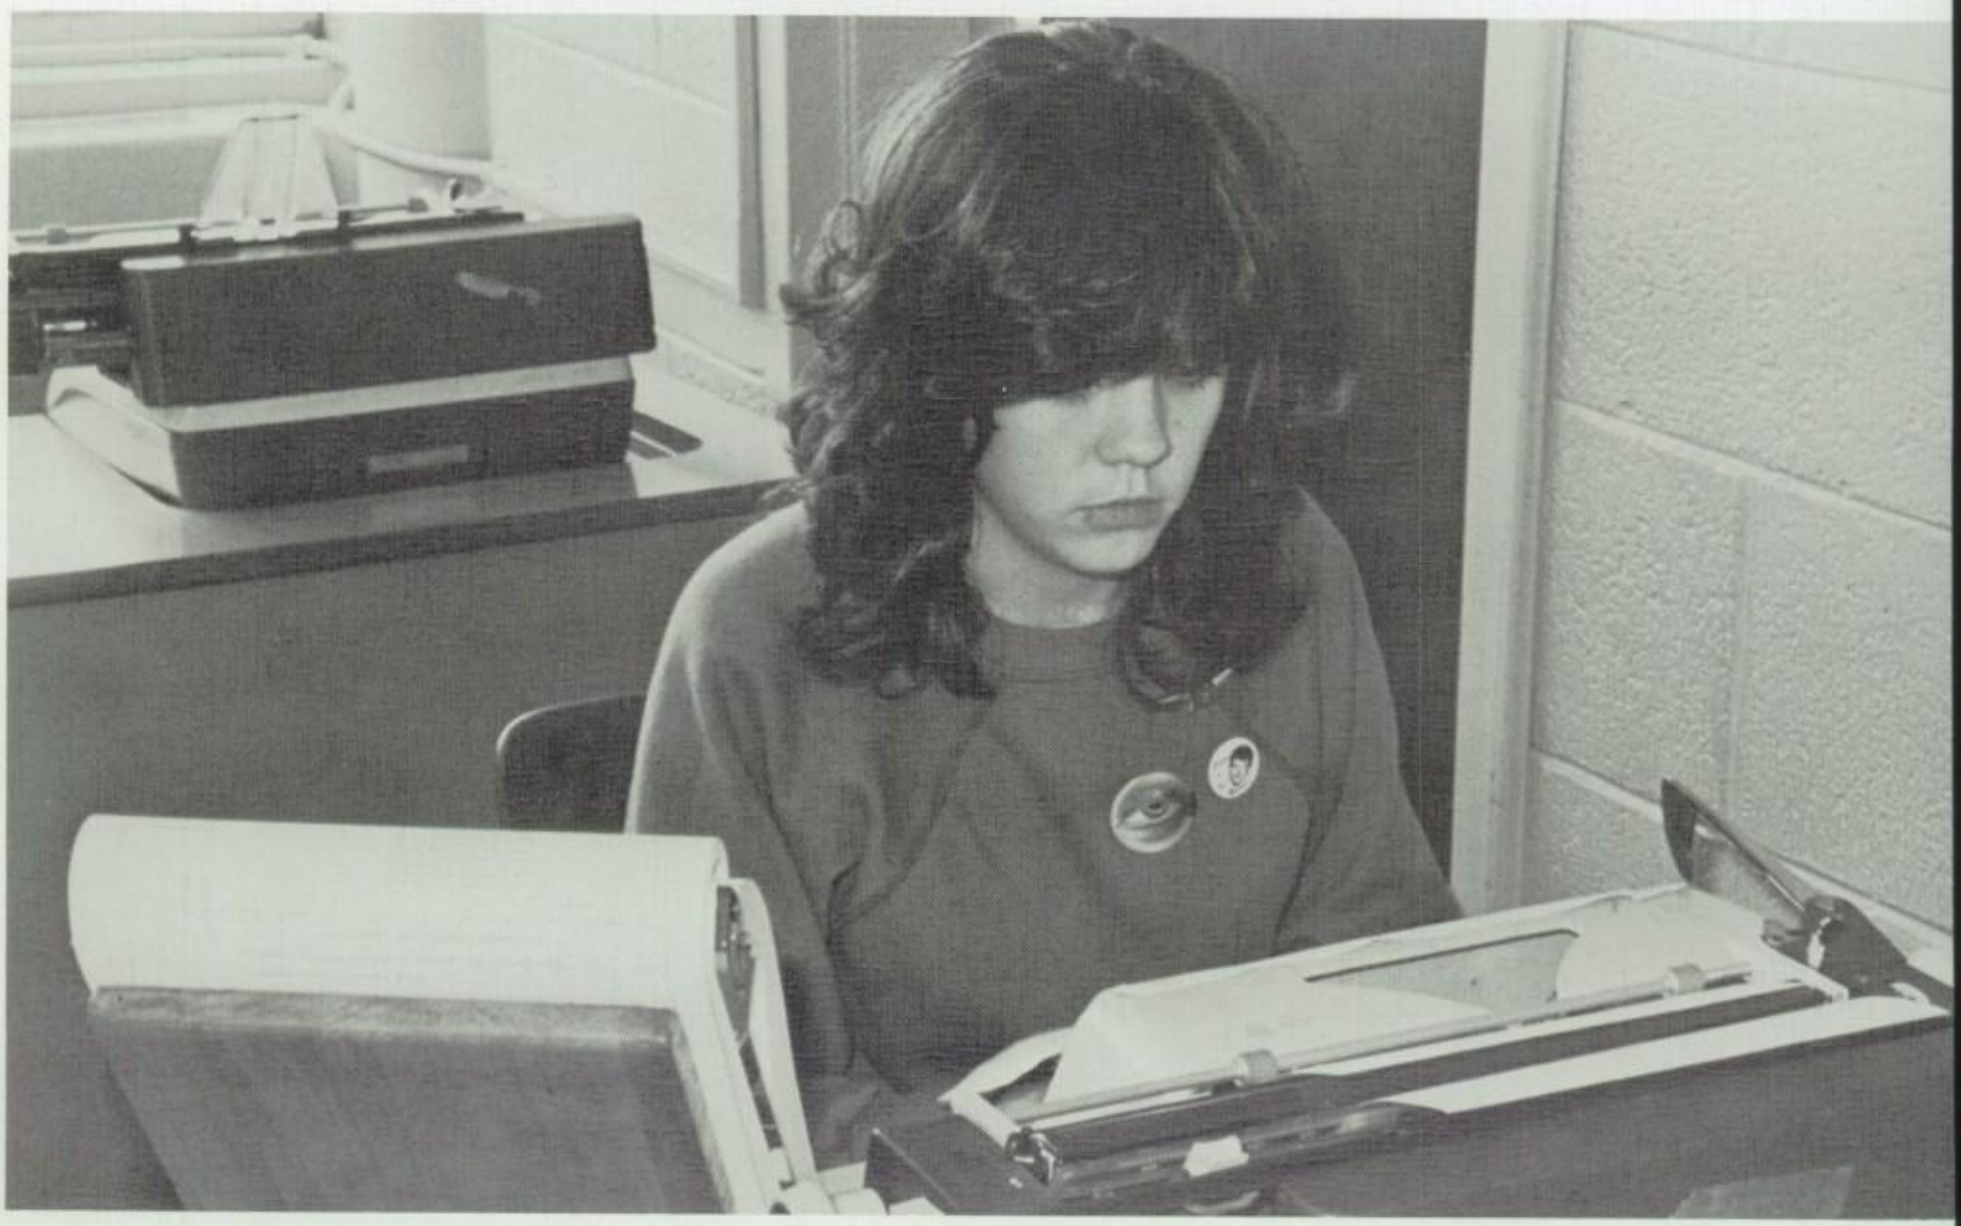
Christy Barnett and Tony Hartson do research for a story they are collaborating on. Shane Boyd, yearbook editor, completes the layouts for a section.

Both staffs faced increasing economic stress as they attempted to produce publications without increasing costs to students.

With the Grant Dispatch being distributed the second Thursday every month, the small staff under John Stone, editor, had to assume more responsibility than usual.

With the theme, "The Changing Times," the yearbook staff took advantage of the layout expertise of Shane Boyd, editor-in-chief.

FBLA boasts national president



Future Business Leaders of America was under the leadership of Lantz Smith, local president, this year. The group spearheaded activities on the national level with Forrest Pollock as National FBLA President.

FBLA's goal was to enlarge the group. They sold sausage, candles, key chains, and many other things to help both the members and the club. The money that was raised went into each member's bank account so that as many as possible could go to the National Conference this summer and then to Puerto Rico.

Lori Outlaw helps out the National president by typing his speeches. Forrest Pollock beams over his recent election at the national conference. Forrest, Teresa Midgett, Melonie Staggs, and Lantz Smith have a planning session for an FBLA meeting on Thursday morning. Gail Cooper helps customers in the student store. Melonie discusses the morning's meeting with president Lantz Smith.

DECA, CO-OP work on jobs

DECA and CO-OP concentrated on business training with DECA emphasizing marketing and distribution, and CO-OP emphasizing manual labor. Safety Club stressed driving safety and first aid.

DECA had a new teacher this year, Mrs. Gail Oglesby. CO-OP was sponsored again by Mrs. Debbie Gandy, who was joined this year by Miss Bonnie Byerly. Safety Club again was sponsored by Mr. John Savage.

Tina Trybulski and Tyron Neisa consult their manuals in DECA. Russell Decker gives instructor Mr. John Savage a joy ride. Mrs. Debbie Gandy talks to a prospective employer for Scott Lehman. Deneen Bell puts up the banner in DECA. Driving in class can be much safer than the road version.

The Human Relations club, the Student Advisory Committee, and Fellowship of Christian Athletes were interested in promoting greater understanding among groups. The Girls O Club was an honorary club for women athletes.

The Human Relations club went to a workshop at Northwest Classen. They planned a hayride and went bowling and skating.

Some Student Advisory Committee activities included suggestion boxes, fund raising activities, career awareness workshops, and multicultural assemblies.

Fellowship of Christian Athletes held meetings twice a month to which outstanding athletes were invited to speak.

Girls O Club had an eventful initiation and held parties.

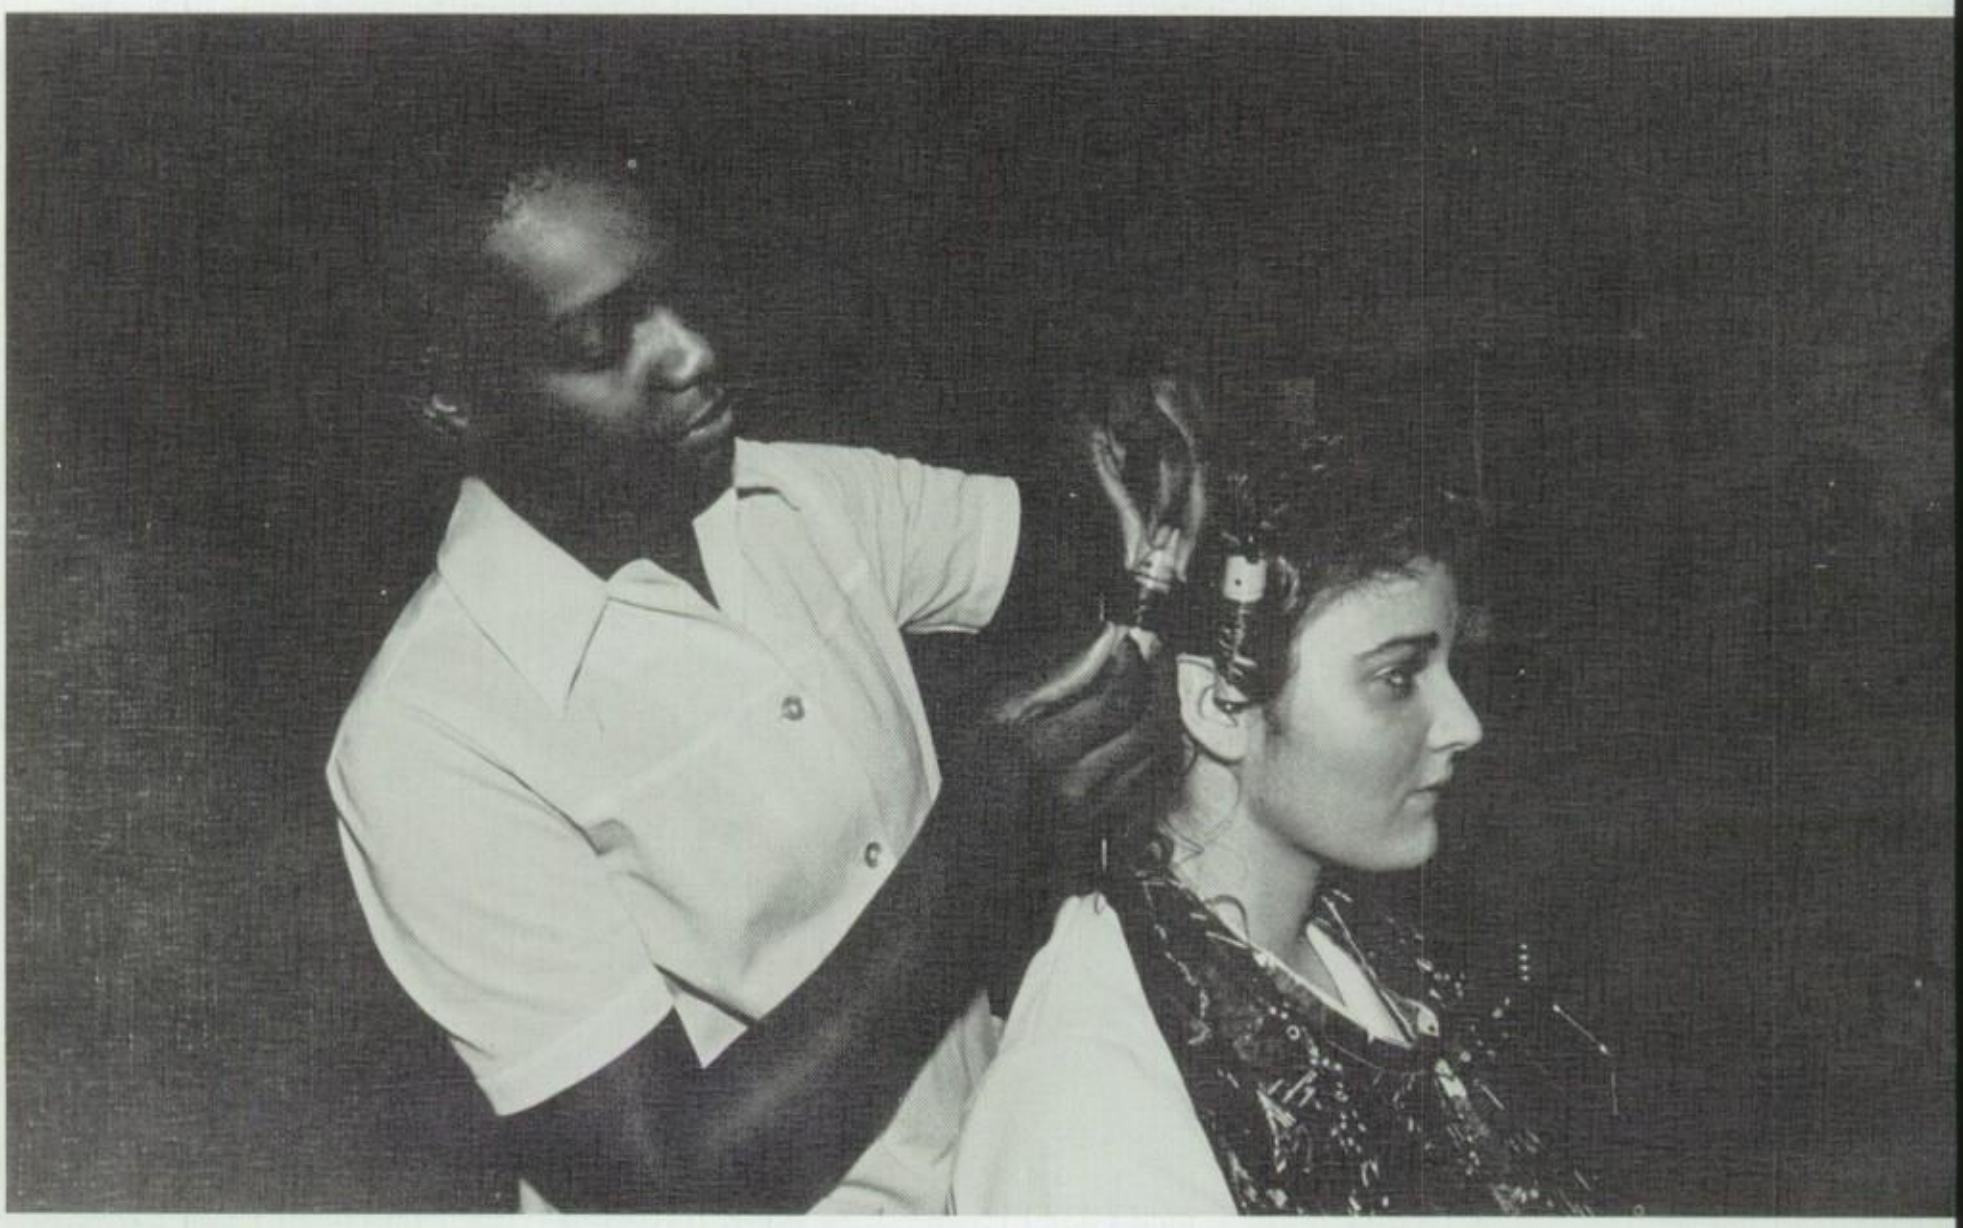
VICA includes charity in projects



VICA had many projects during the year. They collected food for needy families for Thanksgiving. For Christmas they made toys for Children's Hospital.

The cosmetology class worked in a booth at the fair. They did free haircuts and manicures for the people who wanted them.

An annual project sponsored by the Grant cosmetology students was fixing Carver students' hair.

VICA went on professional field trips. The cosmetology class had a hair styling contest in February and March and went to state convention.

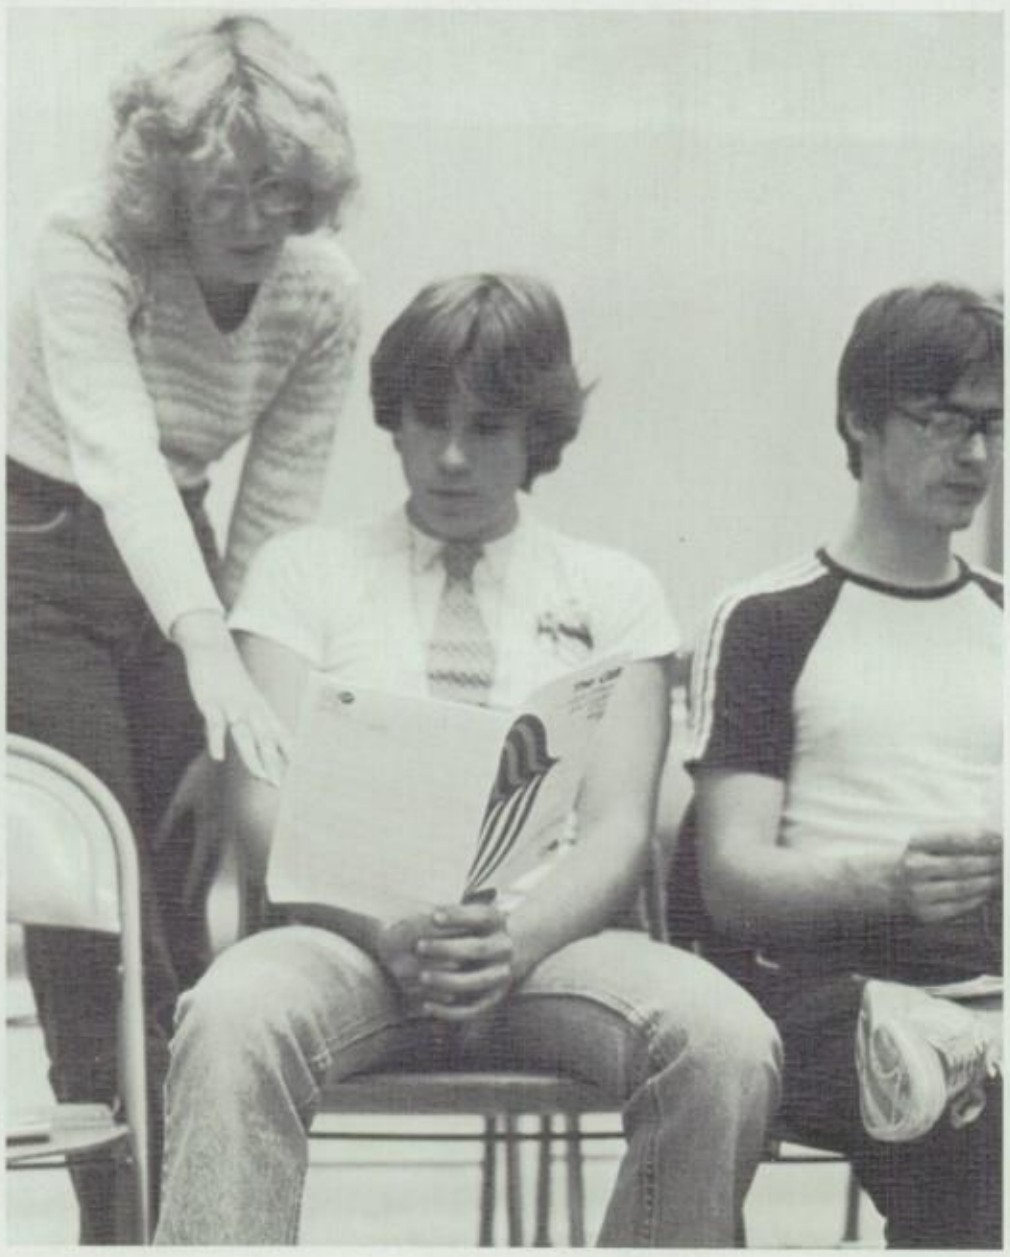
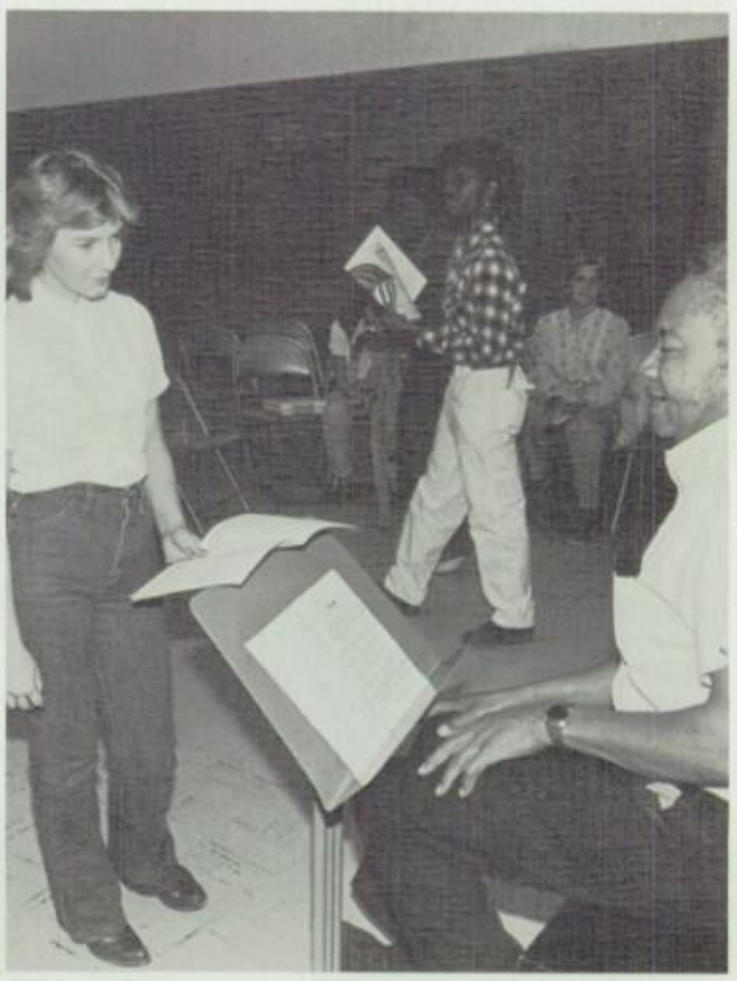
Choir records Christmas music

While older choir members were repeating the traditions, the younger ones experienced for the first time singing in a cantata. Mr. O. J. Thomas led the choir as they recorded Christmas music for KOFM.

Expenses made performing uniforms more difficult to buy this year than in the past.

The group performed at Shepherd Mall for Christmas and gave a concert for the school at Christmas time.





Lynette Smallwood plays the piano for her choir class. Tammy Tipton gives Tim Anderson a little musical advice. Pam Clement listens as Mr. O. J. Thomas gives pointers on her solo. Auxiliary groups shine with band

Under the leadership of Geraldine Hubbard, drum majorette, and Ken Updike, assistant drum major, the band was involved in many outside activities, besides Grant games. They marched in the State Fair Parade and participated in the all city contest. They won outstanding color guard for Flag Corps, Rifle Corps, and Majorettes.

All teams were backed up totally by the cheerleaders and pep club. Their support always encouraged the Generals to keep trying.

With Stephanie Shipley as head cheerleader, the cheerleaders received four superior ratings and were finalists for the award of excellence at cheerleading camp. In the metro cheerleading contest they received second place.

The pep club ushered at the Ice Capades and State Fair Rodeo once again, letting the community know that they were involved.

SCHOOL LIFE

School Life. What we do during school and after it. After studying hard all day, we sometimes like to do some crazy little things to break up the monotony. Although we are busy preparing ourselves for our future, we don't forget to relax a little. We have serious times, and we have zany times. We are getting ready for life. This is fun. This is serious. This is SCHOOL LIFE.

Our years at school are usually quite hectic. Although we are often rushed off our feet with homework, games, club meetings, dates, and classes, it is not all work. Even though we sometimes complain about things a lot, we usually manage to enjoy ourselves. We have fun on the weekends, after school, and sometimes we manage to have a ball at school. Most of the time, we manage to find fun in almost everything we do. These times are FUN, FUN, FUN.

Ron Watkins and George Perakis enjoy "hanging around" school every once in a while. Sandy Crain likes to water ski on the weekends. David Gray gets a kick out of surprising Lisa Linthicum and Shawna Harris by pretending to be a flasher. (He does have on jeans.) Debbie Davenport and Donna Pickens wonder where on earth their ball went. Bryan Echelle gets "dumped" by Wendell Hilterbran. Ronnie Green encourages Thomas Cobb to "take the plunge" and bring the water.

Fun, Fun, Fun

CAN YOU

During our years of high school, there usually is a lot of competition among the schools. We like to show our allegiance to our school by wearing our class shirts, school jackets, or just by fooling around with our friends from school. Even though we may kid our school sometimes, most of us are quite proud of it and we do a lot to BE TRUE TO YOUR SCHOOL.

Janet Keller, Gayla Davis, and Shawna Boulware prepare a little surprise for their friend. Ray Harris, Tim Anderson, and Ronnie West enjoy being a little strange sometimes. Clarice Stewert can't believe that the pep club really used to wear beanies. Tammy Boyanton hangs quite a few posters for Student Council. Lisa Hall and Rhonda Adams enjoy showing off their school shirts and jackets. Vince Ellis and Bob McDougal get a little revenge for a surprise that they were given.

Be True To Your School

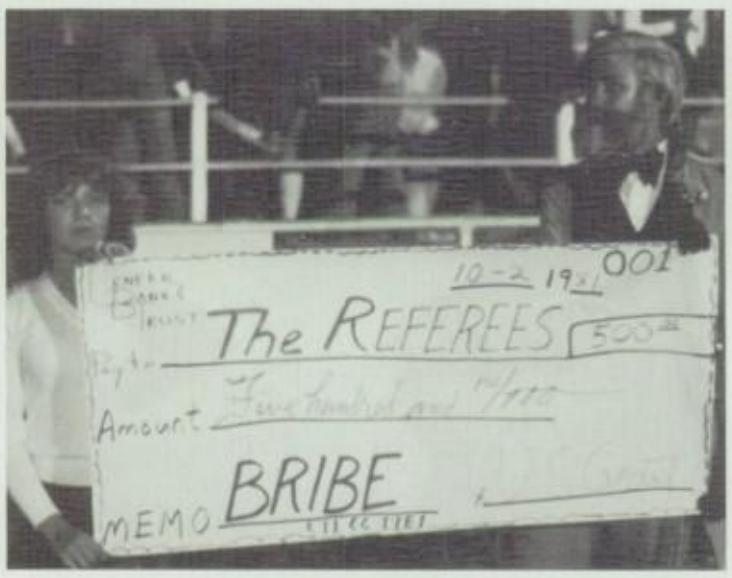
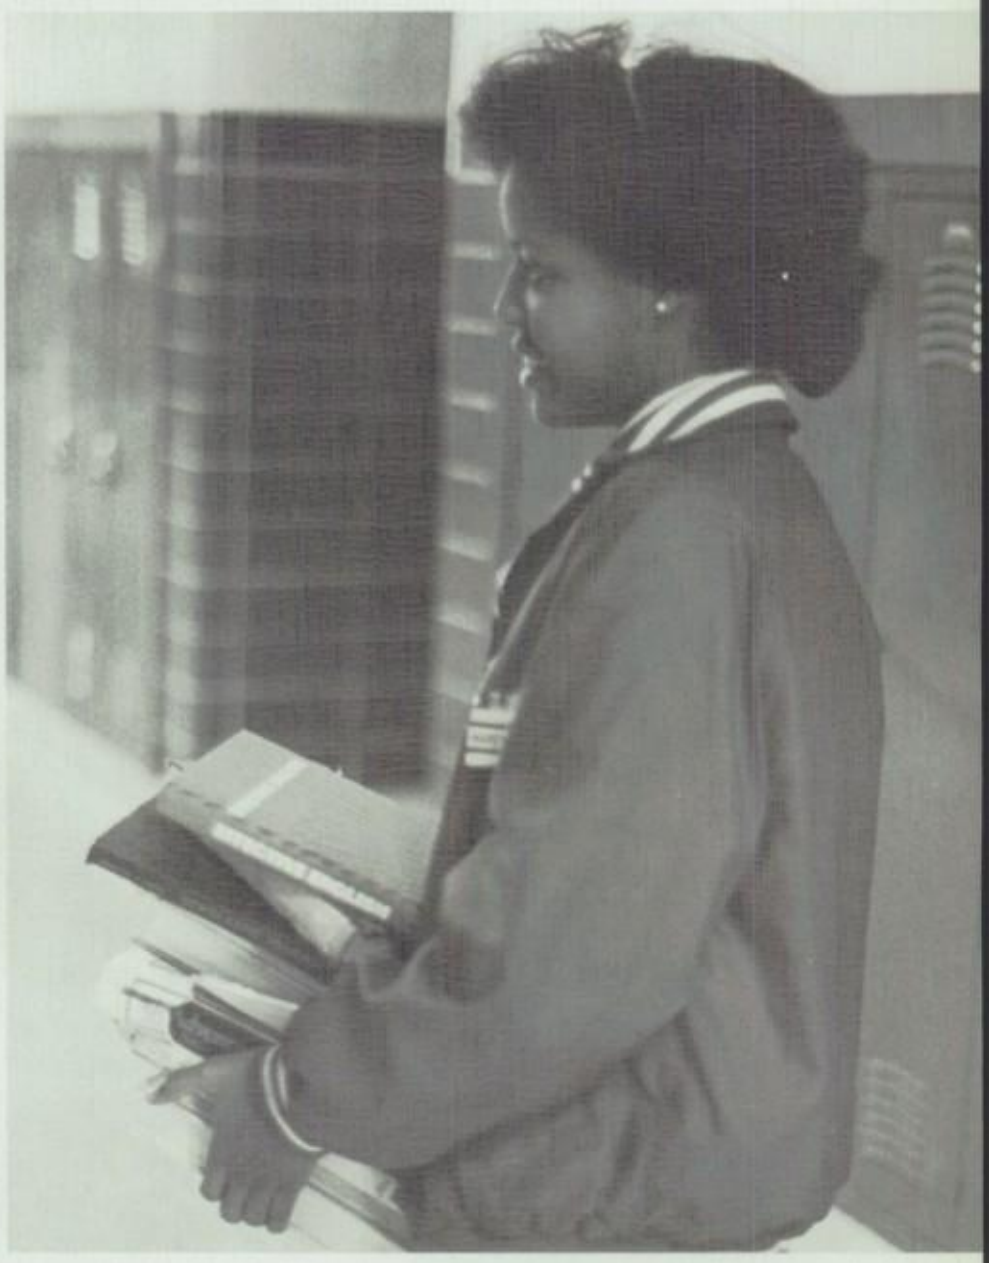
Quite often, we are trapped into doing things that we really don't want to do, and there are so many of them. But we have to do things, bad or good, to get by. Most of the time, things aren't as bad as we make them out to be, but we usually don't admit that. We tend to forget that the things we enjoy far exceed the things that we don't enjoy. The things we don't like to do are sometimes called DIRTY DEEDS DONE DIRT CHEAP.

Mr. Guy Smith seems to enjoy making Ronnie Fielder clean out the trash can for punishment. Jeff Schoelen and Ron Watkins have definitely been up to something sneaky. Greg Huddleston and Ron Aldridge seem to be always bumming money off Roger Ross. Stephanie Hayes wonders when she will be assigned a locker. Angie Moody and David Gray seem to think that there is more than one way to win a football game. Roger Coggins doesn't seem to like being given haircuts, while Sandra Marshall appears to really enjoy it.

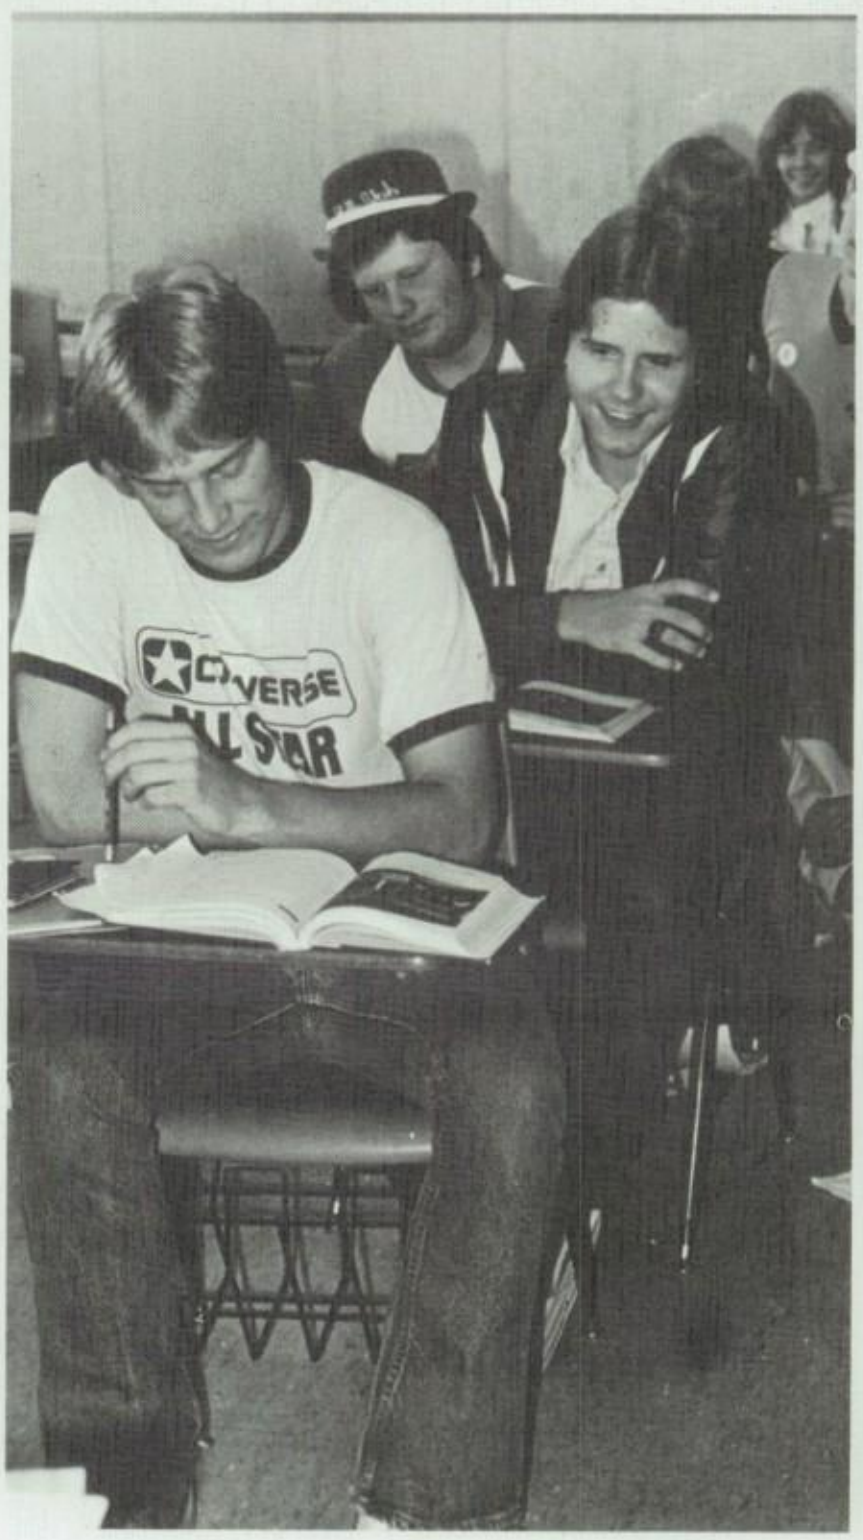




Dirty Deeds Done Dirt Cheap

Through most of our lives, things come and go, and almost everything changes. We often think that we are alone with our problems and worries, but we are forgetting a most important word — friends. Almost everyone has at least one close friend. Friends are great for listening to problems, going places with, and just plain being crazy with. We seldom seem to remember how important our friends are to us and how much more difficult life would be without them. We need to remember that we get by WITH A LITTLE HELP FROM MY FRIENDS.

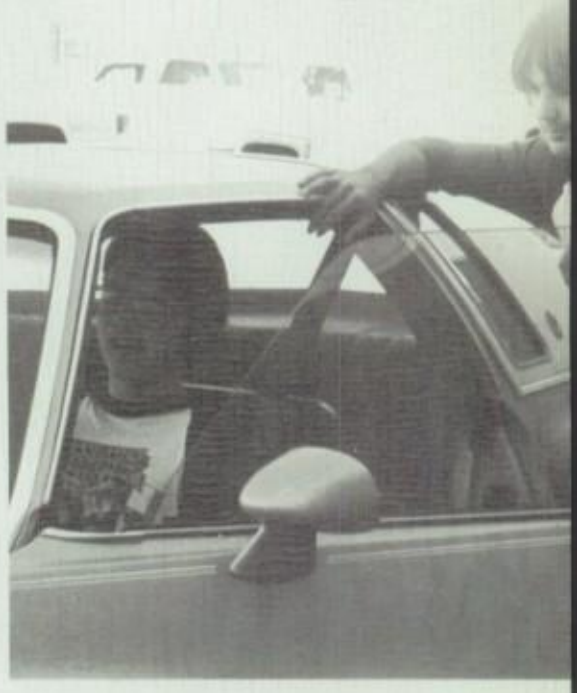
Shelly Slater proves to Greg Gracey that girls *do* know just as much as boys do — sometimes even more. Ronnie Williams and Larry Wooten give Bambi Gates a little help. Angie Goodwin, Tracey Hefner, and Laura McCune think that among them all, they may get their paper finished. Dr. James Robinson displays the first trophy of the year. There seems to be an epidemic of "peeking." Leslie Vapp and Jeff Hewett hold on to Angela Pena as the movie gets a little scary.



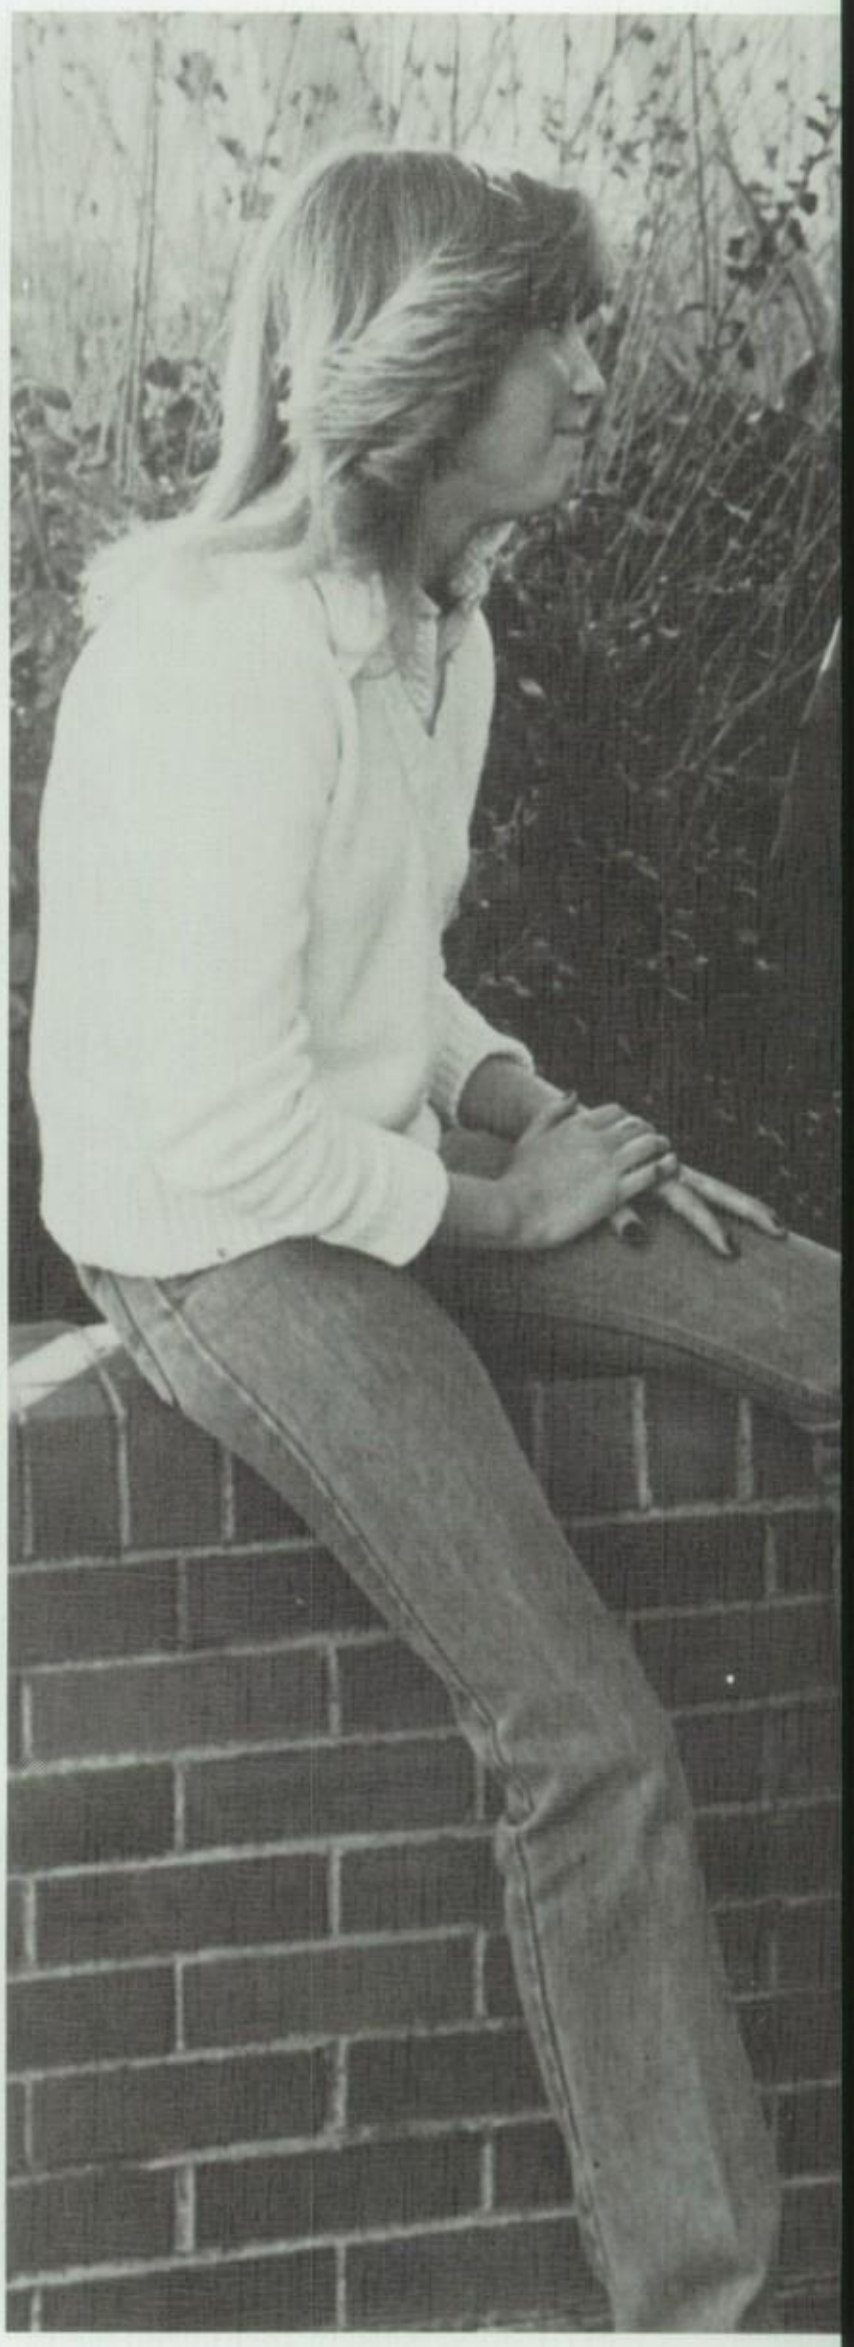
A Little Help From My Friends

We have many influences on us during our lives. Most of these influences help us to grow and mature. Others are for enjoyment, enrichment, and knowledge. One big influence in our lives is music. Almost everyone enjoys listening to music. Others actually write and play it. Either way, it plays a big part in our lives. Throughout our lives, with this influence, we can usually say I CAN HEAR MUSIC.

Mark Roberson and Gary Johnson enjoy listening to a little music at lunch time. Danny Lindsey shows off his car stereo to James Lindsey. David Lee Roth is a very popular singer this year. Barrett Bradbury, Mikele McConaghie, and Robin Nichols argue over which stereo is the best. Shane Boyd can't believe that Freddy Salazar is really going to buy *all* of those albums.

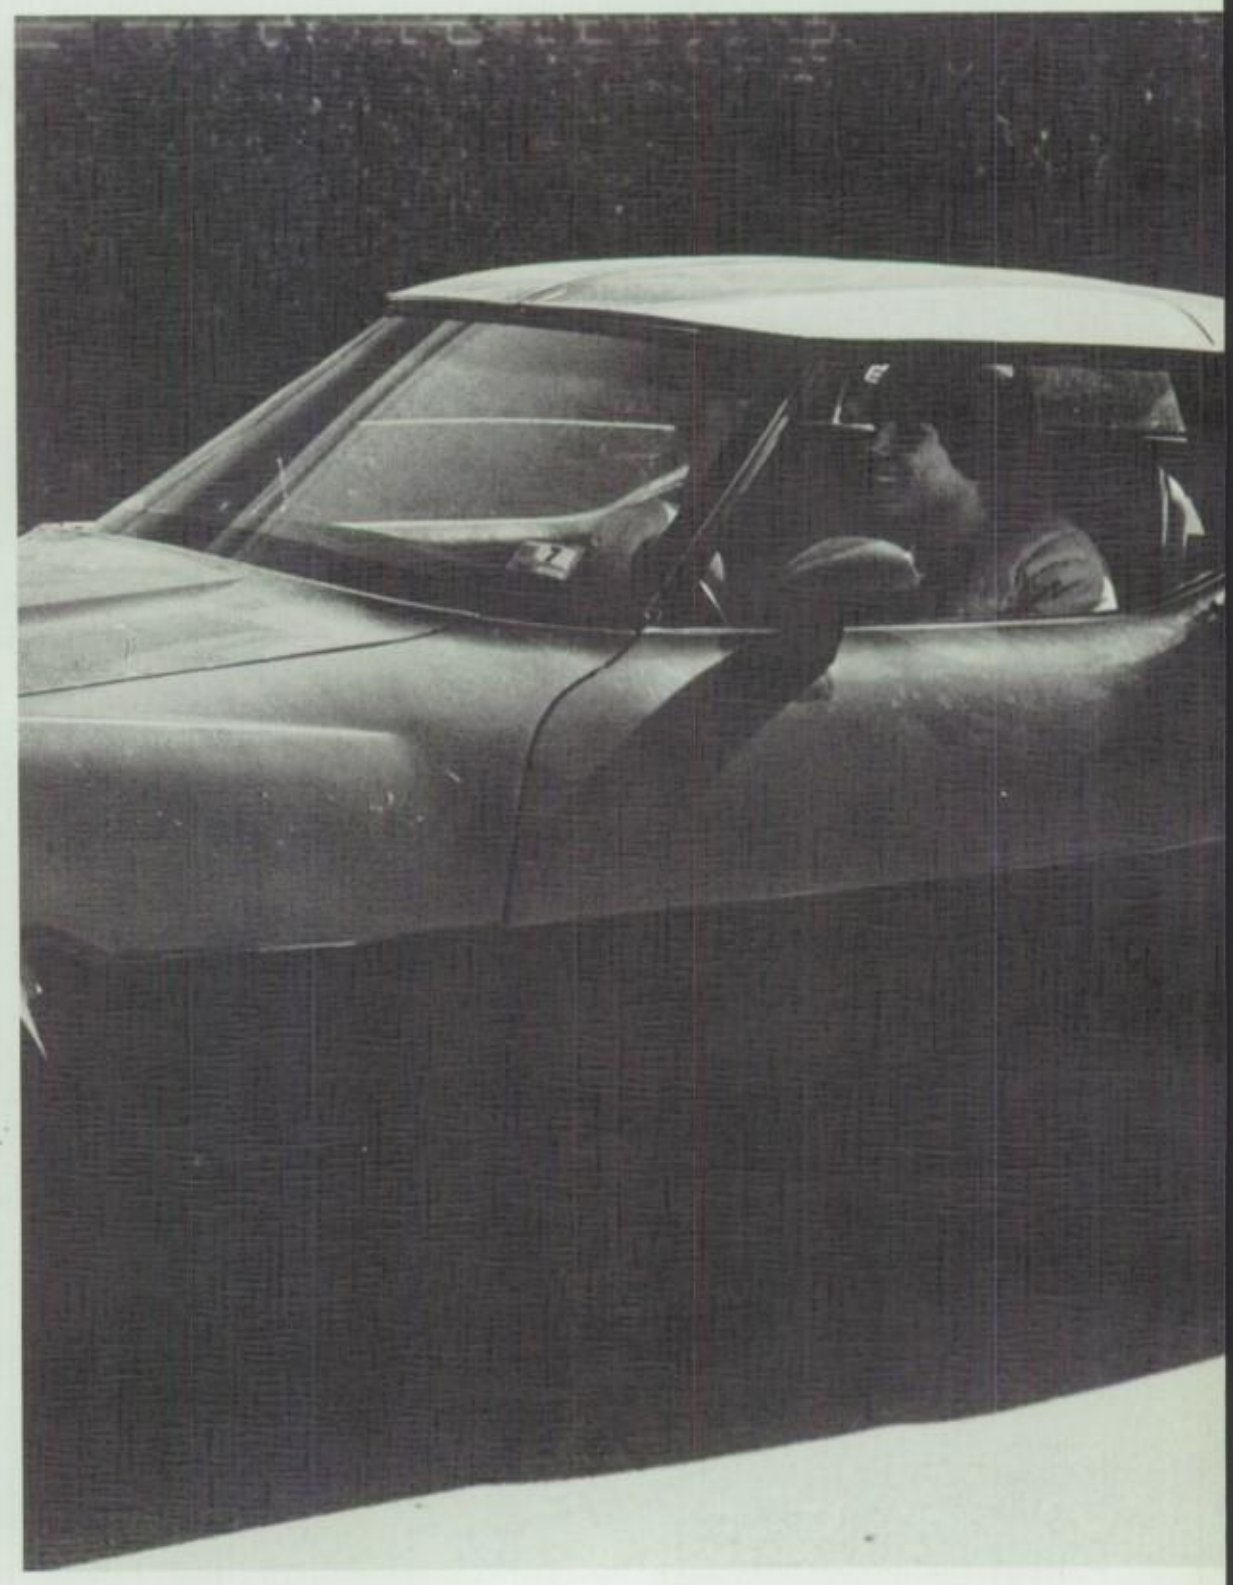


I Can Hear Music



Most people in this world do a lot of dreaming. We like to think about what might happen in the future, and what we would like to happen. We try to visualize how our lives will be when we are older and more mature. Fond dreams are a part of most people's lives. These dreams are sometimes thought of as WOULDN'T IT BE NICE.

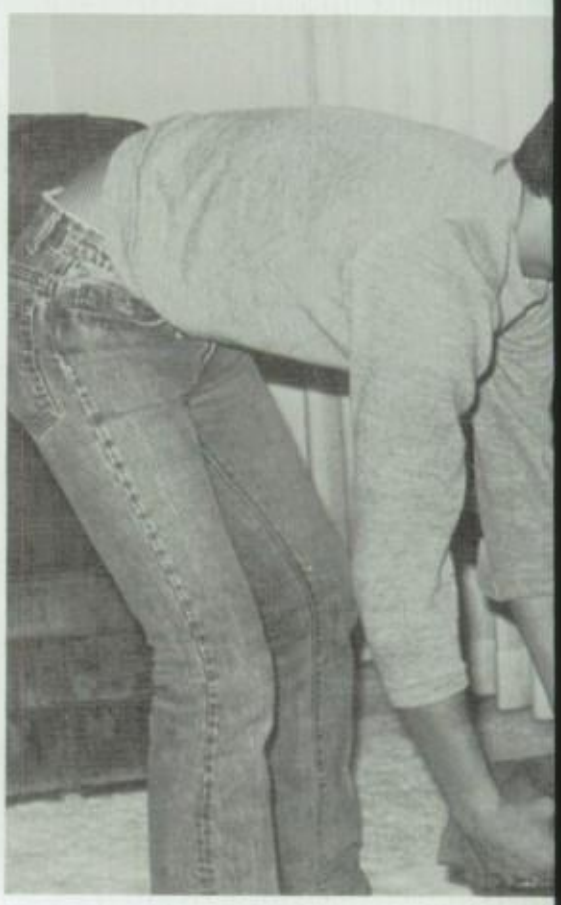
John Stone thinks that this must be a dream — all of these people at once to buy yearbooks! Janet Wooden and Dennis Maddon like to sit in the courtyard as much as they can. Billy Coodey hopes that he will have a Vett of his own one day. Steve Kramer hopes that this will really happen. Annette Walker often wishes that she could do this to Joe Shepherd and Keith Wall.

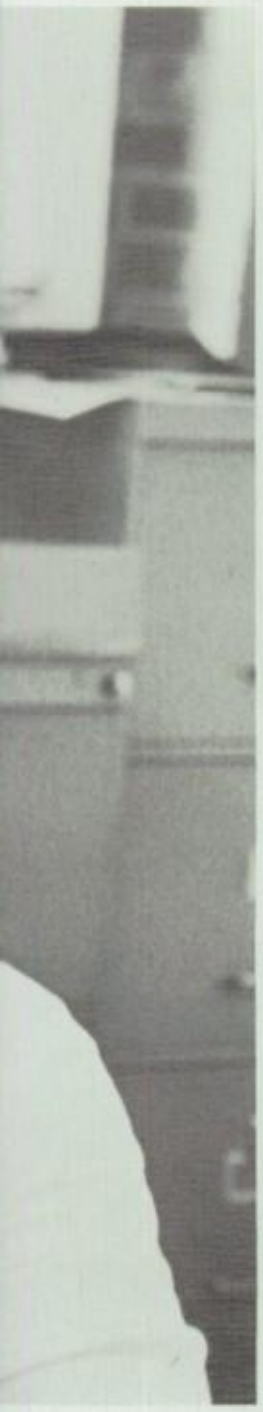


Wouldn't It Be Nice . . .

As we get older and start to mature, our lifestyles undergo a transformation. We seem to be doing things we always associated with older people. We are getting jobs, assuming responsibilities, and generally preparing ourselves for the future. We are getting older and hopefully a little wiser as we look to the LONG AND WINDING ROAD ahead.

Paul Rodgers watches Mark Ryan and Jeff Walden discuss the advantages of attending CSU. Traci Ebert wonders where on earth all of her gas went. Renee Greenroyd enjoys looking at wedding things. Darla Boyd and Kathy Wisdom definitely think that trying out a pool is an important part of finding an apartment. Tommy Seeley really seems prepared to move out quickly. Terry Barnes was *supposed* to be looking in the want ads for a job.

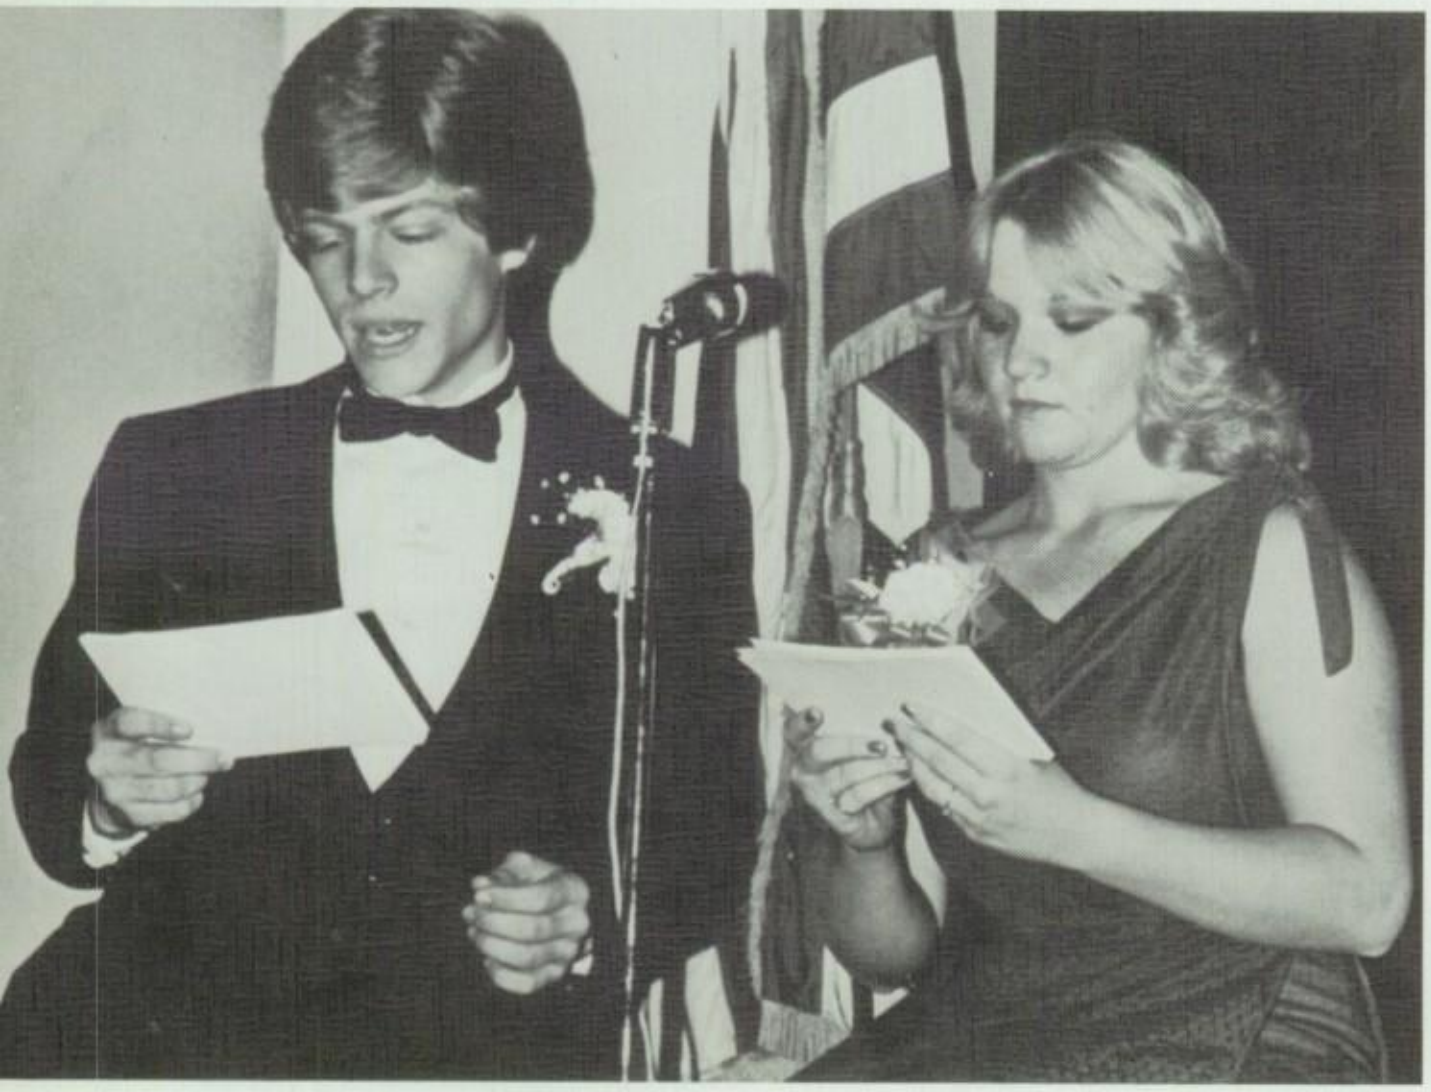


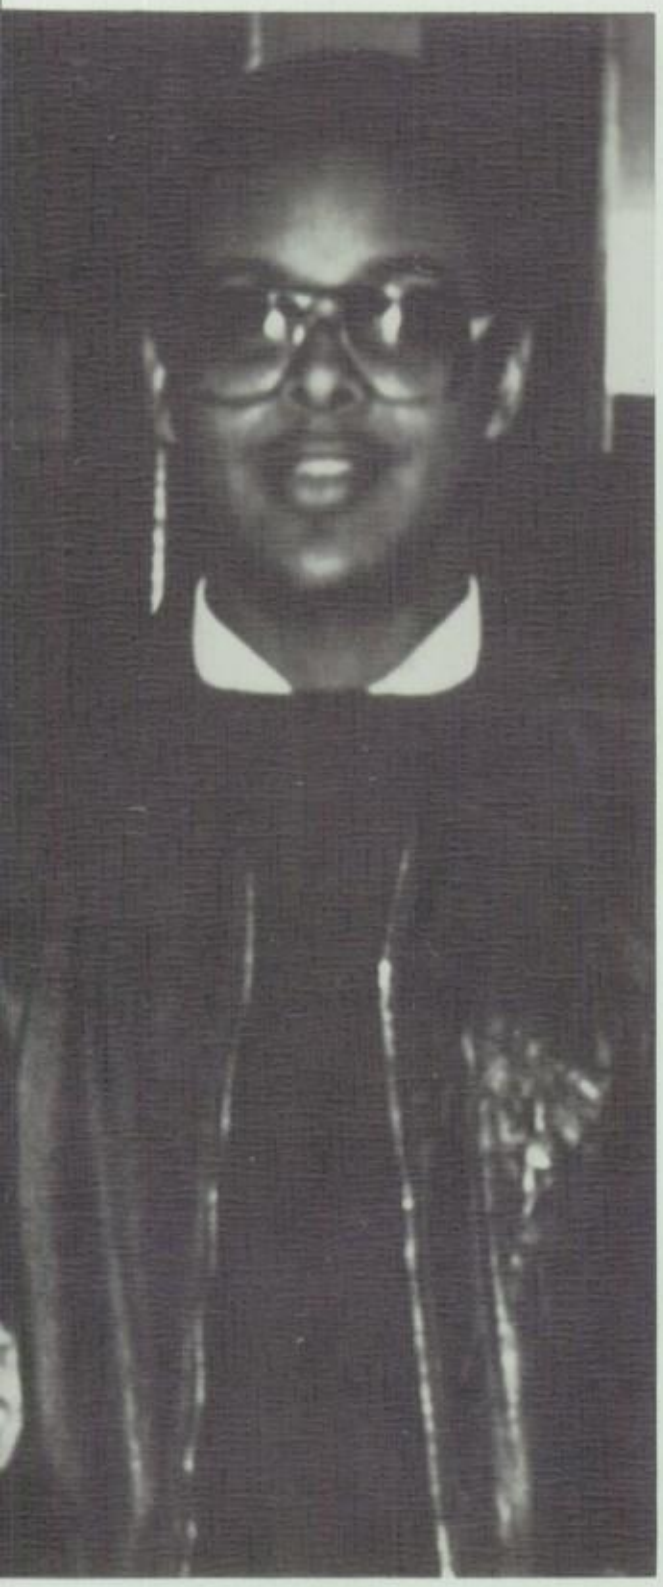


The Long and Winding Road

Many times in our lives we dream. We dream of things that we wish would happen to us. Very often they are a part of our daily lives. We dream, we wish, and we hope. It is a part of human nature to do so, and we usually enjoy it very much. When a few of these dreams come to be a reality, it is often very difficult for us to believe it. It seems very wonderful and unbelievable to us. It is SOMETIMES A FANTASY.

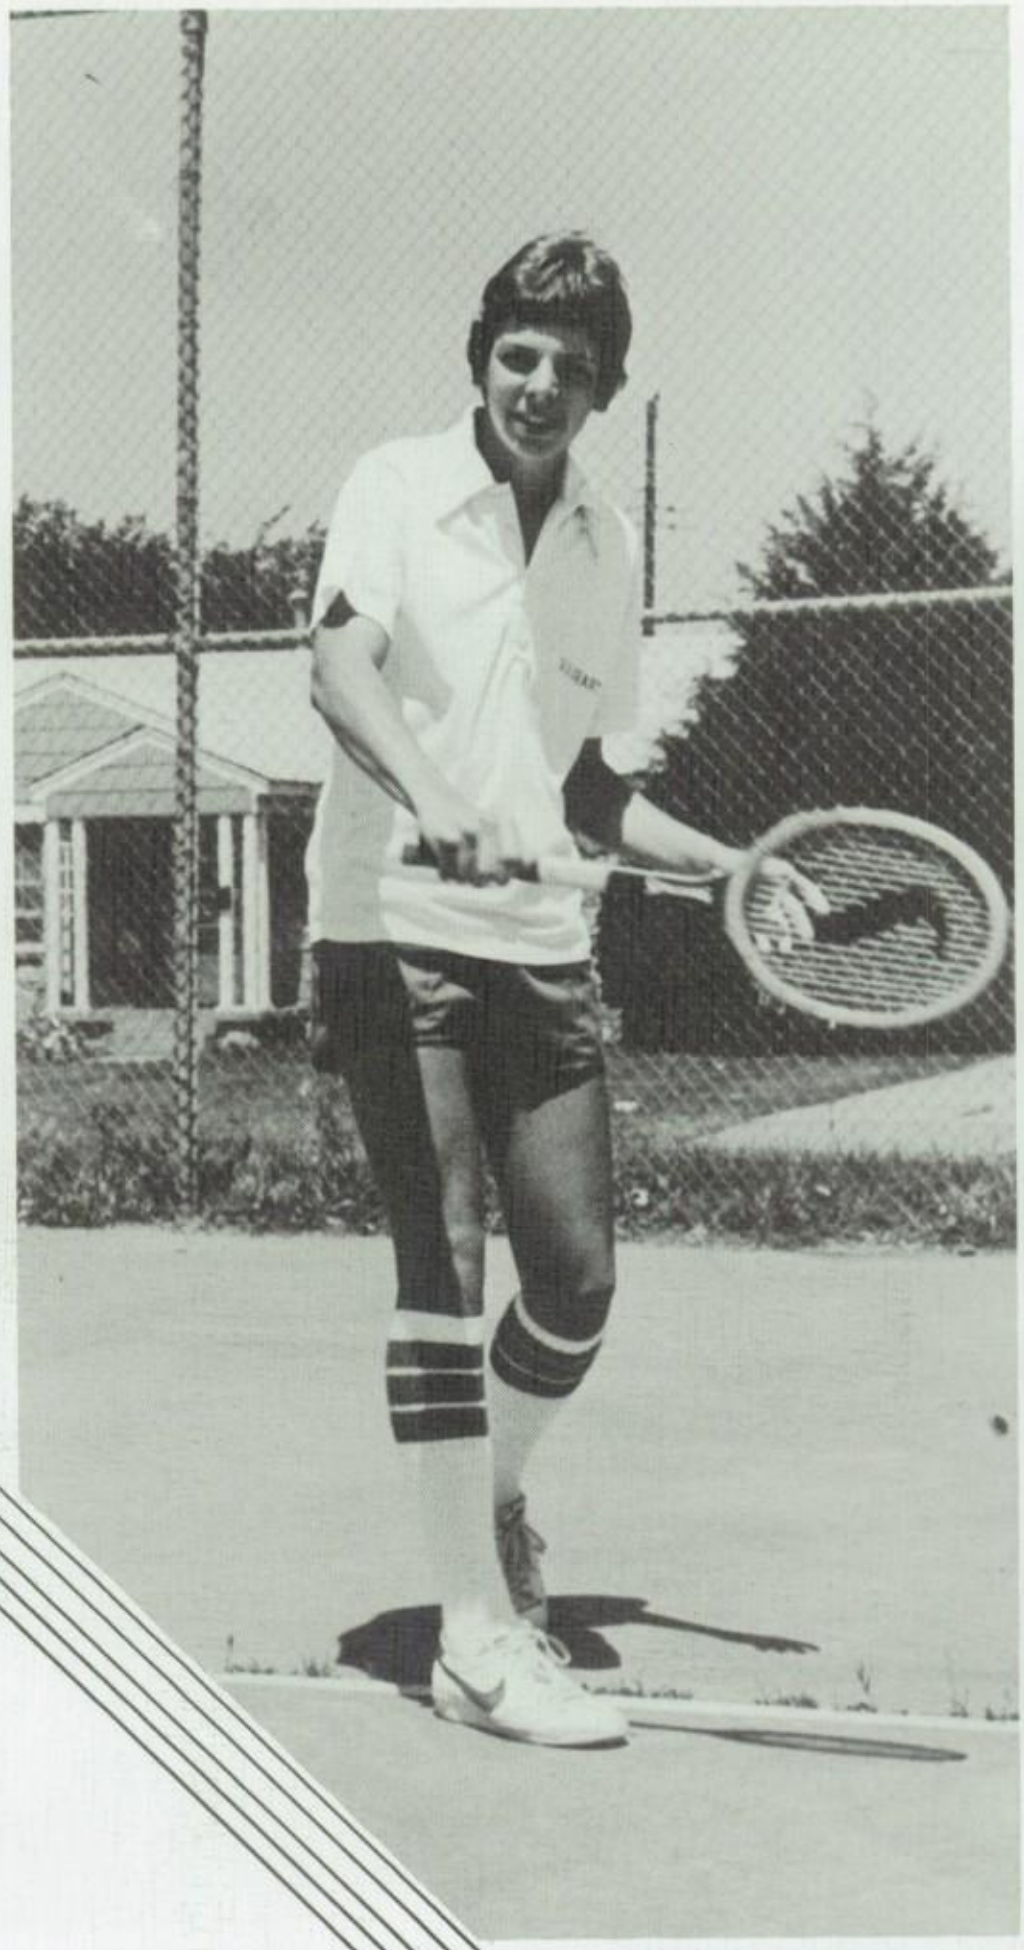
Homecoming Queen was Darla Boyd. Janet Harris was Drill Team Queen. The Homecoming court included: Lisa Plaster, Rae Sheryl Summers, Brently Reid, Darla Boyd, Jennifer Owens, Stephnie Shipley, Sheryl Rogers. Basketball queen was Gina Kerford. Flower girl at homecoming was Jennifer Owens, and crown bearer was Brently Reid. Debbie Craig was wrestling queen.





Most of us grow up with many hopes and ideals which we wish to live up to. We work most of our lives, trying to get things done, but still, that one piece of dream-like quality always stays with us. The realities of everyday life often seem to press down upon us, but we hold on to our dreams. When one or more of these dreams come true, they make everything else worthwhile. It is marvelous, and it is THE GRAND ILLUSION.

Band royalty are Queen Laurie McAlister and King Ronnie West. Ralph Thomas and Darla Boyd were named king and queen of choir. Prince and Princess of Print are Shane Boyd and Rhonda Sackett. General and His Lady are Tony Pittman and Kathy Wisdom. Announcers for the General and His Lady Assembly were Gene Pollock and Dana Baker. The candidates for the General and His Lady and Prince and Princess of Print are Front Row: Rhonda Sackett, Tina Gulledge, Janet Harris, Shelly Slater, Jackie Hayes, Jill Chody. Top Row: Shane Boyd, Bobby McDougal, Greg Gracey, Tony Pittman, Kathy Wisdom, Roger Ross, Larry Wooten, Sherman Cox.



SPORTS

Sports. The place in school where we give our all. We play our hearts out. We give everything we have to give, physically and spiritually. Oh, the satisfaction we derive from the sense of accomplishment, the challenge, the joy, the pain, the disappointment. Our sports are what we are. They are our pride. They are our unity. They are our sports.

Gridsters chalk up 4-6 record in Carter's last season

In his second and final year as coach for the Generals, Coach John Carter led his squad to a 4-6 record which is the best season the team has seen in a number of years. Carter resigned second semester to return to the construction business.

After a sluggish start with losses to Edmond, Putnam City and Del City, the gridsters bounced back to trounce Capitol Hill 33-0 in the Generals' first victory of the season.

After a loss to Northwest, the Generals blighted the John Marshall Bears' Homecoming by handing them a 6-10 defeat.

The gridsters also handed the once powerhouse of Norman a 23-28 defeat in an upset victory.

Both Midwest City and Lawton Ike added to the Generals' losses, with Lawton chalking up a 52-7 victory.

The grid season ended on a brighter note than it started with as the Generals overcame arch rivals Southeast Spartans 13-6.

Howard leads gridsters in season honors

Avery Howard, who became honor laden by the end of the season, placed on the second team for All-State. He also placed on the All-City team. KOMA named Howard as Prep Player of the Week.

Howard, as well as Larry Wooten, Roger Ross, and Ronnie Fielder, was named to the All-Conference team.

At the annual awards banquet for the school, coaches named Howard as Outstanding Offensive Player of the Year, Wooten as Outstanding Defensive Player, and Ross as Most Valuable Player.

Howard rushed for 885 yards and was leading scorer with six touchdowns. He passed for 1,539 yards, completing 139 passes out of 325 passes for a 53.1 passing percentage. He threw seven touchdown passes.

Bobby McDougal and Roger Ross were the two clutch receivers who combined for most of Howard's passing yardage.

Wooten, the leading tackler, made 144 tackles and eight sacks. Fielder made 115 tackles and five sacks. Fielder had no completed passes against him.

Cagers win state 4-A runner up title

The Cagers became state runner up, losing to Southeast 53-46 after winning over Classen 49-58 and Lawton McArthur 49-66 in area play. In state, they won over Tulsa Kelley 51-55, and over Bartlesville College 69-70 in overtime with a dramatic Avery Howard-Greg Miles play. Their final record was 18-11.

Before going to area play the team had a 14-10 record. They finished fourth in Mid-State Conference with a 6-6 conference record.

In regionals the cagers defeated Western Heights 62-46 and lost to Northeast 52-44.

The only returning starter on this year's squad was Greg Miles, senior, who averaged 16.5 points per game after averaging 13.3 points per game last year.

The five starting seniors were Avery Howard, Bob McDougal, Greg Williams, and Marshall Shells, as well as Miles.

The four starting juniors were Troy Miller, Kenneth McNeely, Joe Osborne, and Muhammad Akbar.

Matmen start with series of wins

The grapplers opened their season with a 2-0 record with victories over both Lawton and Capitol Hill. They then squeezed past Western Heights with a 30-32 victory, which gave them a 3-0 record. An easy victory over Southeast then gave them a 4-0 record.

The following match against Putnam West brought the wrestlers their first loss. Larry Wooten said, "One of the reasons that we lost was that the match came right after winter break, and no one was really ready for it." The grapplers did not let this defeat upset them, however, and they retaliated with four consecutive wins against Putnam North, Northwest, Del City, and John Marshall. This gave them an 8-1 record. The last win of the season was against Putnam City. The wrestlers finished off their district season with a loss to both Edmond and Lawton Ike, giving them a 10-5 season record.

The wrestling team finished the year with a 10-5 district record. They won second in the state tournament, despite having only six wrestlers in the tourney. They also placed fifth at regionals with three champions, Vance Conallis, Ronnie Fielder, and Larry Wooten.

Larry Wooten and Ronnie Fielder won state championships at heavy-weight and 168 pounds, respectively. They were both named All-State. Wooten also won Outstanding Wrestler in the All-City tourney and at Ada. He took the Oklahoma Open which is considered to be one of the toughest tourneys in the nation for high schoolers.

Baseball team brings 3-A title last spring

For the first time in a number of years, the baseball team brought US Grant a state title when they brought home the class 3-A State Championship in Coach Chuck Page's second year as head coach.

Highlight of the baseball season last year was winning the Guthrie tournament. Jeff Baugus, David Gibson, Tom Ebert, and Mike Tolbert were all placed on the All-Tournament team.

Ronnie Aldridge, center fielder, the only junior starter for last season, will head the roster this season. His batting average last season was 361.

The rest of the roster will be heavy with seniors. They include Roger Ross, Mark Ryan, Avery Howard, Bobby McDougal, Vince Ellis, and Ronnie Williams.

McDougal's batting average last season was 312; Howard's was 195; Ross' was 333; Ellis' was 200; Ryan's was 320.

In Coach Skip Metheny's first season as head coach, the players were confident of strong leadership. "Coach Metheny's brother is one of the best college coaches in the state," said Aldridge. "We expect our coach to be comparable."

"We are going to use the same program that Mike Metheny uses, and we can call on him for advice if we need it," Aldridge continued.

The team expects to be watched very closely by scouts this season because of last year's championship. The coach and the players feel that they are in a good position to go further if they wish because the pro's expect good things from Grant after players like Todd Demeter, now with the New York Yankees. Another General is Brent Worcester who is now prominent in the ranks of the Oklahoma Sooners.

Rogers, Dukes set to lead JV, freshman teams

Coach Skip Metheny projected that junior varsity and freshman teams appeared even stronger than the two younger teams were last year.

Sonny Rogers is scheduled to be the head freshman coach. Allen Dukes will again head up the junior varsity team.

Golf, tennis coaches stay same except girls' golf

Mr. Dean Choate was again planning to coach the boys' golf team; Mr. Gary Gleaves was planning to coach the girls' golf team for the first time. Both boys' and girls' tennis coaches, Mr. Jack Nichols and Mrs. Vicky Parker, returned.

Last year, the boys' golf team went to state after winning second in regionals in Midwest City. Greg Brooks placed third in individual competition.

Returning lettermen are Scott Darnold, Brent Loveless, and Toby Walser. Among new players will be James Humphreys, freshman.

With only one letterman, Angie Moody, returning, new coach Gary Gleaves faced a bleak team season in golf. Angie Moody will enter all competition as a single.

Terry Mahler was the only team member last year to go to state where she placed tenth. Moody was unable to go to state because of illness.

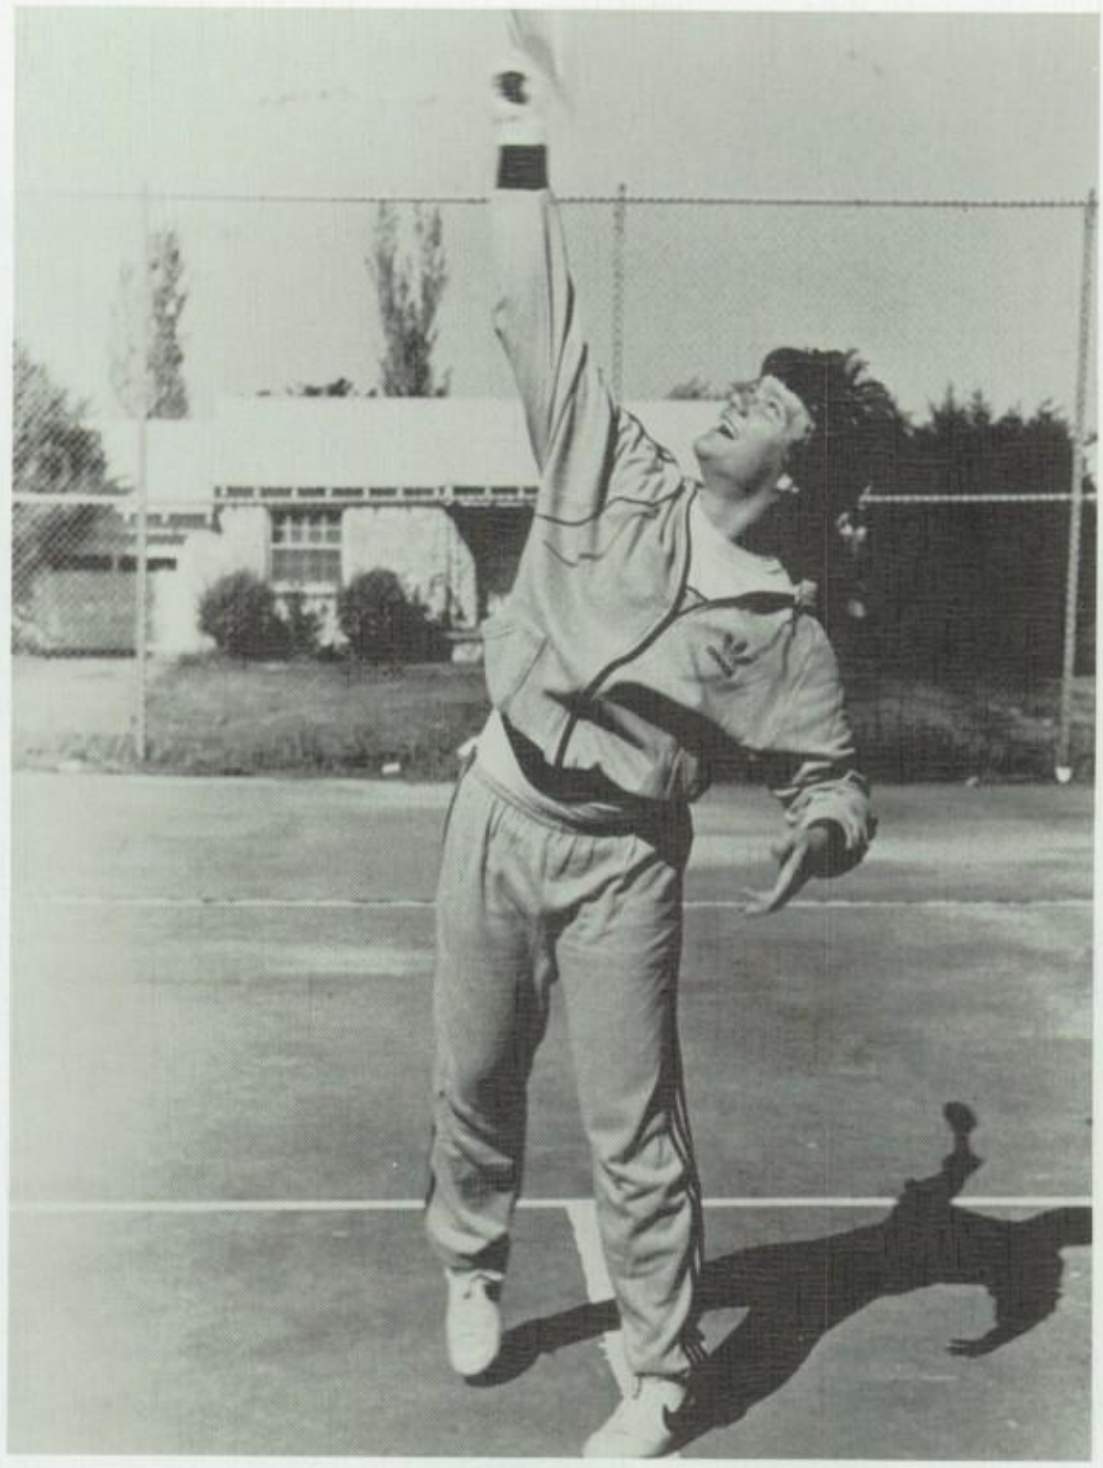
Jeff Walden and Greg Brooks won first place in All-City doubles to culminate the 1981 tennis season. After that, Walden and Brooks placed fourth in Mid-State doubles competition. Brad Vaughn and Mark Winter placed sixth in Mid-State doubles.

The team participated in both the Douglass and Edmond tournaments.

Returning lettermen are Jeff Hewett and Ken Updike, as well as Jeff Walden.

The entire tennis team from the 1981 season will return this year with the exception of graduate Susan Clark.

The returning lettermen are Jana Gooding, Stephanie Shipley, Tommie Jefferson, Kristin Herring, and Dee Dee Hewett.



Jeff Walden knows that the only way to be successful is to practice hard. TENNIS TEAM. Front Row: J. Gooding, S. Shipley. Second Row: Coach J. Nichols, K. Updike, K. Herring, T. Jefferson, D. Hewett, Coach V. Parker. Back Row: J. Hewett, J. Walden. Dee Dee Hewett, Stephanie Shipley, Tommie Jefferson, and Jeff Hewett relax during practice. Scott Darnold and Brent Loveless take it easy while Toby Walser has to carry all the clubs. Former golf player Becky Humphreys tries not to laugh as Toby Walser tries not to cry. GOLF TEAM. Front Row: James Humphreys, Angie Moody, Brent Loveless. Back Row: Toby Walser, Curt Miller, Scott Darnold, Steve Kramer.

Cross country team small; tracksters greet new coach

Cross Country, again under the direction of Coach Harold Crosley, had meets with Southeast and Capitol Hill on an individual basis, followed by both city and regional meets, while track looked forward to a productive season under new coach James Thatcher who was a professional football player before his teaching career began.

Cross country team, which was exceptionally small this season with only five participating regularly, did "well for their size," according to Coach Crosley. They practiced regularly and attended all the meets.

Thatcher was expecting the high number of returning lettermen to spell out a strong season for the tracksters.

Returning lettermen were Phil Hill, Joe Osborne, Thomas Cobb, Marshall Shells, Terrence Banks, and Greg Williams.

Running the 440-relay again this year was Joe Osborne, Marshall Shells, Phil Hill, and Thomas Cobb who took fourth place in the Carl Albert tournament last spring.

Greg Williams will again run the 440-open this season as he did last; Terrence Banks will again run the 880-open, and the mile relay.

Joe Osborne practices his hurdles. Tom Johnson, Sam Snyder, Terry Alford, and Phil Hill drill up and down the bleachers before practice. CROSS COUNTRY. Ronnie Green, L. Edwards, K. Updike, R. Sands. Terry Alford and Ricky Miles stretch before a meet. TRACK TEAM. Front Row: T. Alford, R. Miles, P. Hill, S. Harding, G. Reins, E. Bradford. Back Row: Coach J. Thatcher, T. Johnson, S. Snyder, K. Marshall, D. Floyd, J. Smith.

Swim teams place in city, Mid-State

The boys' swim team ended their 1981-1982 season with a 8-1-0 record, and they placed third in Mid-State and fourth in All-City. The girls' swim team accomplished a 7-2-0 record, and they placed fourth in Mid-State and second in All-City.

Ron Cordell, junior, was the boys' strongest swimmer, taking first place at the Mid-State tournament, and qualifying for the state meet in Tulsa.

The boys' relay team took second at the Mid-State tournament.

Mrs. Nancy Phelps succeeded Miss Marybeth Buttermore as swimming coach this year.

Girls' softball wins second in All-City competition

After winning first place in All-City for five consecutive years, the girls' softball team won second place this year, losing to the Southeast Spartans in All-City. The season record was 8-1 in regular play.

Leading pitcher was Gina Hayes. Strongest hitters were Traci Ebert, Linda Dukes, and Tommie Jefferson. Other starters were Tracy Hefner, Jana Gooding, Melana Hudson, Dana Baker, LaGina Pipes, Clarice Stewart, and Kelly Brewster.

Mrs. Connie Ellis was assisted by Mrs. Ann Douglas as head coach again this year.

Jana Gooding prepares for the play as Gina Hayes pitches the ball. Ready to bust the ball is Melana Hudson. Tracy Hefner awaits the pitch. Clarice Stewart makes her way to second. Girls' basketball chalks up 7-12 record

The girls' basketball team closed their season with a 7-12 record under Mr. L. H. Bengtson, head coach, and Mr. O.J. Thomas, assistant coach.

High scorer for the season was Cassandra Daniels, junior, with a 29-point game average. Andrea Maniford, sophomore, had 16-point game average.

Dawn Wilson, sophomore, from Wichita, Kansas, joined the team early in the year to lend strength in the guard department. Tonda Nero, junior, who served with the team since her freshman year, was also strong in the guard department.

Arveca Nash, junior, a team member since her freshman year, helped as both guard and forward.

Pam Byers, the only senior on the team, was a strong guard.

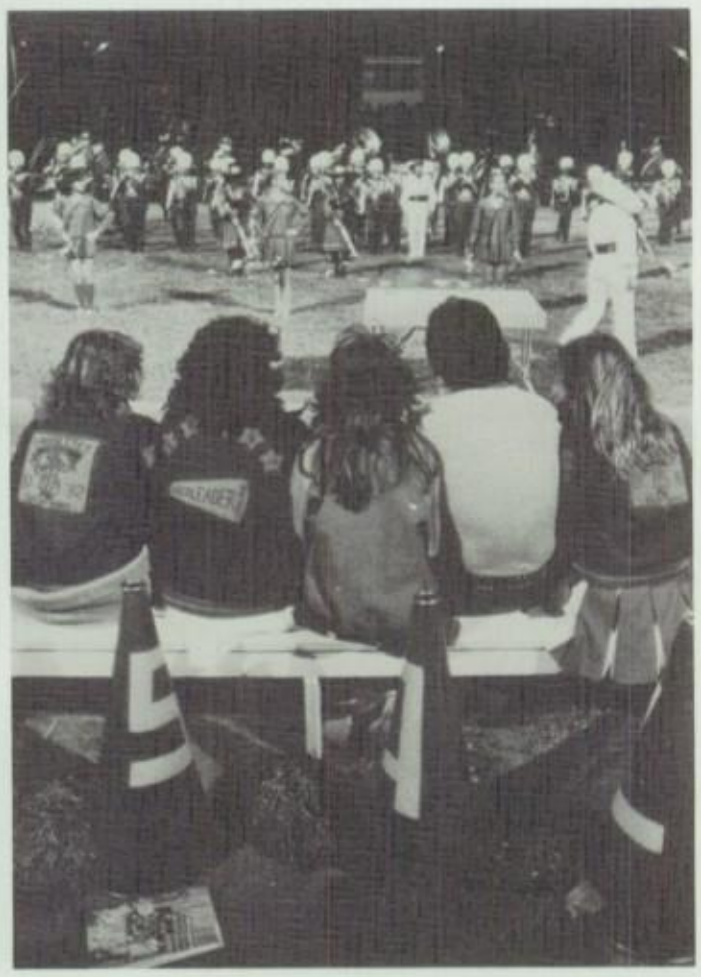
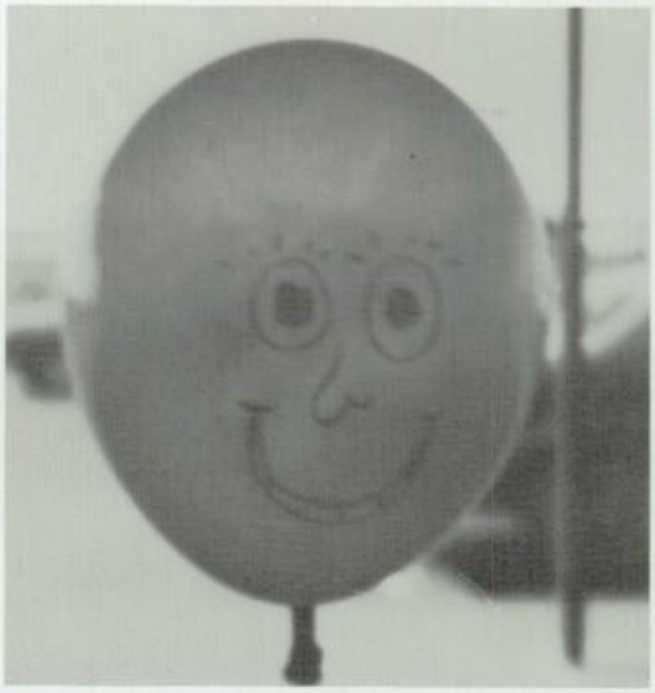
Sights such as this seem to be commonplace during the year. A good crowd always turns out for the Homecoming game. Students huddle together on a cool fall night to watch the halftime activities. Gathering in the breezeway during lunch is a good way to pass the time. Jeff Schoelen and Ron Watkins have a little fun before the 89er game.



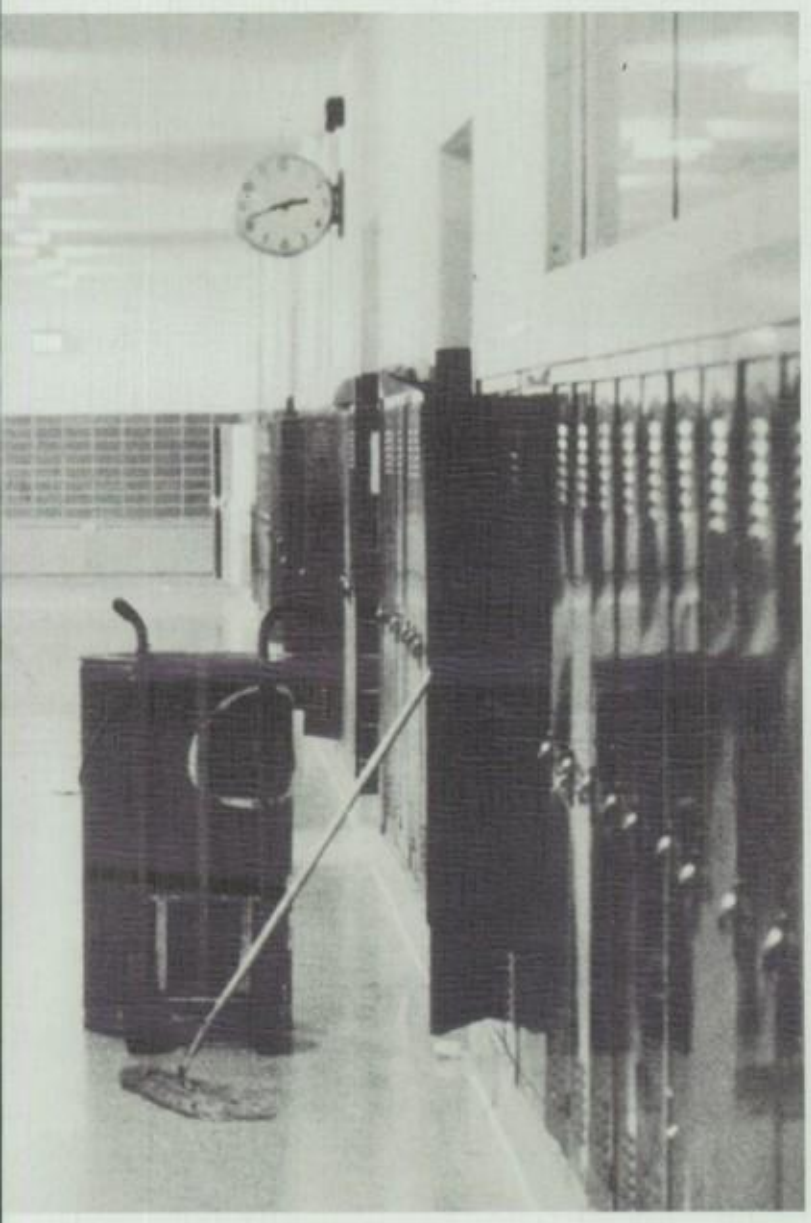
Moonlight on the water, sunlight on my face,
You and me together, we are in our place . . .



This balloon definitely didn't come from the art class. Tina Gulledge is pleased with the night's game. The senior class seemed to enjoy almost every minute of their final year. A student makes his way through the halls on an errand during class. Lisa Hall, Patty Briggs, Laurie McAlister, and Kathy Duniphin enjoy a little goofing around during a time out.

No friends and yet no enemies, absolutely free,
No rats aboard the magic ship of perfect harmony • • •

Diane Baker is once again on the field in spirit. The senior class of '82 gathers together for a few short minutes. This familiar view of the school is one that we will remember for years to come. Cathy Higgins, Shelley Brown, and Robin Nichols can always be seen together. The halls get quiet after 2:30 on the last day of school. General Grant (alias David Gray) enjoys the game in the latest fashion.



However far we travel, wherever we may roam,
The center of the circle will always be our home.

John Lennon, 1980

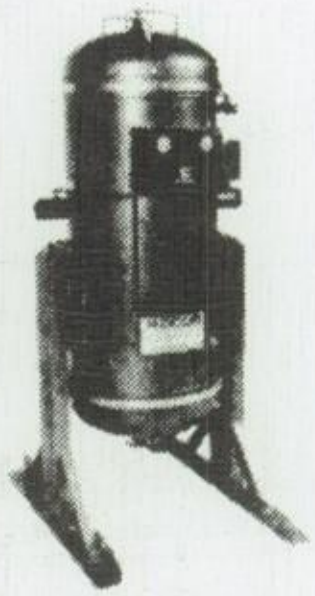
RACOR. GETS THE WATER OUT OF DIESEL FUEL.



Water in diesel fuel can destroy injector pumps and nozzles. Racor filter separators get the water out. That can save you up to $5,000 and more in downtown, labor and parts.

Racor's patented three-stage fuel filter/water separator gets virtually 100% of the damaging water out of diesel fuel, as well as the very small solids that can also destroy injectors and pumps. With Racor you get all of the fuel filtration protection you need. Nothing more, and certainly nothing less.

As many of us close our high school careers, we realize that we have come a long way in our ability to cope with our changing times. Those of us who still have additional high school years ahead of us have begun to more fully realize the need to continually face up to change.

In spite of the rapidity of new adaptations which our times require of us, we also perceive (sometimes sadly), that there are dimensions about us that refuse to change because of human nature itself. We often grope with our fears, our hates, and doubts, but within the parameters over which we can feel some sense of control, we can collectively say that to one degree or another, we have learned to deal with THE CHANGING TIMES.
